Introduction

This report sets out the value of the section 106 agreements that the Council signed up to; received; and spent in 2016/17. It also sets out the value of Community Infrastructure Levy (CIL) that the Council has levied; received and spent in 2016/17.

Planning obligations sought and achieved will vary from year to year depending on the sites that are granted planning permission subject to an agreement within that financial year. The Council will not ultimately receive all financial contributions secured via signing planning agreements. For example the landowner / developer may choose not to progress development or another application and agreement may supersede an earlier one.

In addition, financial contributions received within a financial year may date from previous years. Depending on the agreement, developers can be required to meet their planning obligations before the development is started, during its course or before completion, occupation or during the lifetime of the development. As such there is little correlation between agreements signed and monies received during each financial year.

Section 106 planning obligations

The Council enters into section 106 agreements with developers to secure mitigation to enable development. The Council can only ask for mitigation that is necessary to enable the development to proceed. Up until summer 2014, the Council used this mechanism to secure financial contributions towards mitigation for protected heathland and for transport contributions. After summer 2014, the Council no longer secured contributions via this mechanism for new planning permissions, but via CIL instead. Section 106 agreements are also used for site specific mitigation such as transport improvements, play areas or affordable housing, as required for a particular location in relation to the specific planning permission.

Community Infrastructure Levy (CIL)

In summer 2014, the Council adopted a CIL charging schedule. CIL is a tariff-based planning charge that enables the Council to raise funds from development to contribute to district-wide infrastructure. The levy is charged at a set amount per square metre of additional floor area that varies depending on the sub-market region within the district. Infrastructure projects to be funded at least in part by the CIL are set out in the Council's priority for spending list, known as a regulation 123 list, available at this link <https://www.dorsetforyou.gov.uk/planning-buildings-land/planning/submit-planning-application/submit-a-planning-application-in-purbeck/cil/community-infrastructure-levy-in-purbeck.aspx>

The priorities include heathland mitigation; the Swanage to Wareham rail reconnection; other transport projects set out in the Purbeck Transportation Strategy; social infrastructure (education, libraries); and green infrastructure such as sports and recreation facilities.

Section 106 obligations signed in 2017/18

This section sets out the section 106 planning obligations that the Council secured in the financial year 2016/2017. They can include financial contributions towards heathland mitigation/nature conservation and transport infrastructure as well as any affordable houses and / or commuted sums towards affordable housing. It also includes any details of additional financial mitigation with an explanation of what that is for and any other mitigation secured, such as physical works etc.

Section 106 money spent in 2017/18 (transport)

The Council passes on funding collected for transport improvements to Dorset County Council to help fund the Purbeck Transportation Strategy. The strategy includes traffic management improvements; rail service enhancements; bus service enhancements; walking and cycling improvements; transport interchange initiatives; and smarter travel choices. This table sets out how much section 106 money has been spent on which transport schemes this year.

Scheme	Amount spent	S106 contribution

Total	£218,801.00	£218,801.00

Section 106 money spent in 2017/18 (heathland)

The Council works with other agencies to use the money received for heathland mitigation to fund measures to avoid adverse effects arising from additional residential development. This includes projects that provide facilities to attract people away from protected heathland sites as well as strategic access, management and monitoring. This table sets out where money for heathland mitigation collected via section 106 agreements has been spent in the financial year 2017/2018.

CIL liability notices issued in 2017/18

A CIL liability notice sets out how much CIL will be payable by the time a development is completed. The CIL liability notice is issued at the same time as a planning permission decision notice is issued. The CIL liability is payable upon commencement of the development, in accordance with the Council's Instalment Policy, available to view at <https://www.dorsetforyou.gov.uk/planning-buildings-land/planning/submit-planning-application/submit-a-planning-application-in-purbeck/pdfs/cil-instalment-policy.pdf>
