I strongly support the plan although the policies related to the protection of environment should have been better worded. Its natural environment could have been assessed in details, identifying wildlife sites and corridors (ie Green & Blue infrastructure). The plan fails to emphasise the importance of the Stinsford natural environment to the setting of the historic Dorchester. Dorchester residents benefit from the river bank, the water meadows and beyond situated within the boundaries of the Stinsford parish.

Section 3, Natural Environment

Policy SNP1

Strongly support the policy

Although wildlife sites are identified but wildlife/ ecological corridors are not developed

Policy SNP3

Strongly support.

The Local Landscape Character of the Parish must be protected at all cost. The North Downs, Water meadows and River Frome form the setting of the historical town, Dorchester. The views from the Waterston Ridge to the town are magnificent and should be protected

Policy SNP4

Strongly support

Dark Skies are important element of rurality. Light pollution should not introduce to this rural parish.

Policy SNP5 & SNP6

Strongly support

Policy SNP7

Strongly supported

A comprehensive list of heritage assets provided.

Policy SNP12

Strongly support

All new houses and buildings should be constructed Carbon Zero (Passivehouse)

Continue on a separate sheet if necessary

5. Please give details of any suggested modifications in the box below.

Policy SNP13 Protection of Groundwater

Page 38, para 6.7 reviews the existing policy in the Local Plan.

Groundwater Protection policy should be reworded, covering all cases causing the risk of groundwater pollution. A part of the Parish sits within the groundwater protection zone. The town's drinking water is also provided through chalk downs within the Parish.

Continue on a separate sheet if necessary
