

## **Bournemouth, Dorset & Poole Waste Plan Examination**

### **Hearing Statement on behalf of Rigby Group (Bournemouth Airport)**

#### **Matter 5: Development Management**

---

#### **Inset 7 Eco Sustainable Solutions, Parley**

##### **(Questions 92 - 98)**

We are surprised that the questions posed by the Inspector in respect of the detailed proposed allocation of the above do not address any of the issues raised by the aerodrome safeguarding authority in respect of the proposed development. Additionally, the development of Aviation Park is one of the principal aspirations of the Dorset Local Enterprise Partnership and the Development Considerations do not make any assessment of the likely effects of the allocation in terms of the deliverability of these wider economic development aspirations.

#### **Policy 20 Airfield Safeguarding Areas and Inset 7 Eco Sustainable solutions, Parley**

##### **(Question 106)**

Refer to points above. Two meetings with the proponents of the scheme have been held where various design parameters have been set out. These have led to design changes but still not to the satisfaction of the aerodrome safeguarding consultee. DCC have been kept abreast of these meetings.
