Seaweed balloons

Be kind to nature  
and get creative

hand made  
Made from

paper!

# A few ideas:

- Support local community initiatives such as Plastic Free Community groups; Eco Hubs; Repair Cafe's; Wilding projects & enable them to grow across Dorset.
- Support education groups, such as DEED, to provide workshops & training for all schools so pupils & teachers can think creatively & critically about their use of SUPs and engage with the UN's Sustainable Development Goals (SDGs).
- Ban balloons, styrofoam food packaging, & single use plastic at events & festivals, promote refill and reuse.
- Make it easier for people to recycle, & reduce litter, by providing more street bins.

**Sir David Attenborough:**

**‘Avoiding waste is the one thing we  
can all do to help save the planet’  
2019**
