No

13. Are there any further issues relating to the areas of search that you think should have been considered as part of the assessment process?

Yes

No

If you have answered 'Yes' please set out what you see as the further issues.

The failure of the developers of the recently built housing estates on the eastern side of Shaftesbury to include any new or expanded school, medical or retail (apart from the one shop which hosts a funeral care business!) facilities to cater for the new families inhabiting the new houses, coupled with the atrocious condition of much of the building work (crumbling bricks, rust(?) stains leaching through rendered walls, painted doors already peeling badly, a garden wall falling away at a corner), shows a lack of control which authorities must address before any new housing development is allowed.

14. What are the additional infrastructure requirements that are likely to result from potential future development at Shaftesbury?

Please set out what you see as the additional infrastructure requirements.

Schooling (particularly at primary level), medical, community venue and retail infrastructure is hopelessly inadequate for the new families inhabiting the newly built housing developments at the eastern side of Shaftesbury and must be addressed urgently, and before any further housing development is even contemplated.

Yes

No

If you have answered 'Yes' please set out what you see as the further issues.

20. What are the most important infrastructure requirements that are likely to result from potential future development at Stalbridge?

Please set out what you see as the additional infrastructure requirements.

Yes

No

If you have answered 'No' please set out your alternative approach and information/reasoning behind this.

Affordable Housing

22. Do you consider that the existing reference to nine dwellings in Policy 9 of LPP1 should be removed from the policy to allow larger schemes to come forward where there is evidence of local need in excess of that which could be met by the provision of nine dwellings?

Yes

No

23. Do you consider that the existing policy approach, which seeks to prevent exception sites coming forward adjacent to the four main towns within the District, should be amended?

Yes

No

24. Do you consider that the Council should continue with its existing policy approach, which allows for a small number of market homes on rural exception sites?

Yes

No

Self-Build and Custom-Build Housing

Yes

No

Comments

If you have any comments about the Issues and Options Document or the Sustainability

A350 Corridor

Whilst any other areas around Shaftesbury remain suitable and potentially available for development of any kind, it would seem to be absolute folly to permanently remove the existing protection of the proposed route for the Shaftesbury Outer Eastern Bypass (for which there is no viable alternative). When, as seems not just probable but almost inevitable at some future date, the A350 is upgraded to meet the strategic need for improved north-south connectivity to South Coast ports, to allow major increases in road traffic, including HGVs, one can only imagine with a degree of horror the impact on Shaftesbury and its residents if there is no bypass.

Appraisal please set them out in the box below. If your comments are in relation to a specific question or chapter of the Issues and Options Document then please state which question or chapter your comments relate to.

Continue on a separate sheet if necessary
