Effective mitigation would need to be monitored and acceptable to local communities. The proposed mitigation would need to be scrutinised through public consultation and the developer would need to produce evidence of this.

Suggested Alterations:

"When applying this presumption, the Council will consider all proposals carefully against their potential adverse effect upon European protected sites and, if necessary, ensure the developer provides effective" and acceptable mitigation through full and open public consultation.

Fully support the retention of the middle school playing fields as they are in good condition, well used by local schools, clubs, residents and neighbouring clubs. There is no other land locally that could be considered "equivalent or better replacement" than the current fields. One suggestion has been land adjoining Hill View Cemetery; this land is used for growing corn and is not an equivalent replacement and it is considered an inappropriate use of land next to a cemetery, which is visited daily. The land is in this Committee's ownership and will not be sold at any time in the future as it is land for cemetery use and has been consecrated. Land adjoining and leading to the flood plains is entirely unsuitable and on a slope.
