

1. Purpose

- 1.1 The DiSC serves as the overarching framework which facilitates the legal and secure exchange of personal information between partner organisations that have a common obligation or desire to provide services within the community.
- 1.2 Individual PISAs will be developed and agreed by the Information Governance leads of participating organisations where there is a requirement to share personal information to provide services. The PISAs will contain the detail of the specific information sharing arrangements.

2. **Definitions**

- 2.1 A personal information sharing agreement (PISA) sets out a common set of rules to be adopted by the various organisations involved in an information sharing arrangement.
- 2.2 These form part of a contract between organisations. It is good practice to have a personal information sharing agreement in place, and to review it regularly, particularly where information is to be shared on a large scale, or on a regular basis

3. Content

- 3.1 All partner organisations that are party to the DiSC will ensure that any PISA contains:
 - the purpose(s) for the sharing of personal information;
 - the legal basis for the sharing of personal information;
 - full details of the organisations that are party to the PISA;
 - a nominated lead person for information sharing in each organisation;
 - the types of personal information that will be shared;
 - how the information will be shared;
 - retention and disposal arrangements for the information;
 - the outcome of a Privacy Impact Assessment;
 - details of any other organisations with whom personal information may also be shared by the recipient;
 - individuals' rights procedures for dealing with access requests, queries and complaints;
 DiSC (Dorset Information Sharing Charter) prepared by the Dorset Information Governance Group 2015.

6. PERSONAL INFORMATION SHARING AGREEMENTS

- review of effectiveness/termination of the sharing agreement;
- how data breaches will be investigated;
- sanctions for failure to comply with the agreement or breaches by individual staff.

4. Approval

4.1 PISAs will be approved by the respective nominated lead person within each partner organisation participating in the specific information sharing initiative.

5. Conditions for sharing information

- 5.1 All partner organisations to the DiSC agree that they may only share information with one another providing the following conditions are met:
 - the sharing of information is agreed by all parties;
 - the sharing of information is proportionate to meet the purpose. This will be a matter of professional judgement.

6. Recording disclosure/receipt of information

- 6.1 All partner organisations must have systems in place to record disclosures and receipt of information shared under a PISA. This will:
 - create an audit trail to identify wrongful or excessive sharing of information:
 - allow partner organisations to inform each other whenever information is identified as being inaccurate, misleading or disputed, so that all instances can be corrected, destroyed, clarified or annotated as appropriate;
 - facilitate periodic retrospective assessment to be made of whether the information sharing achieved its objectives and where it is determined that it failed to do so, the information sharing should cease or be modified as appropriate;
 - enable partner organisations to meet their obligations with respect to subject access requests (unless an exemption applies), which includes informing the individual of the source of information and details of to whom it has been disclosed.
- 6.2 In many instances, this will simply be a matter of recording the fact on the record. However particular care, should be taken to record instances where sensitive personal information is shared without consent.

 DISC (Dorset Information Sharing Charter) prepared by the Dorset Information Governance Group 2015.

6. PERSONAL INFORMATION SHARING AGREEMENTS

- 6.3 Any requests to disclose information in such circumstances and the disclosures in response to these requests should be documented.
- 6.4 Care should also be taken to ensure that any information sharing which occurs during multi-agency or partnership meetings is recorded.
- 6.5 It is best practice to adopt and use an information sharing notice and attendance sheet on such occasions.

7. Existing information sharing protocols

7.1 Where information-sharing protocols between organisations existed prior to signing up to the DiSC, such protocols will remain valid. However, these protocols should have been reviewed and updated regularly to ensure compliance with and changes in data protection and the charter to maintain a consistent approach.
