Subject: Proposed planning south of Elm Close, Sturminster Newton
Date: 03 September 2015 11:18:21

Dear Sirs,

I have lived in Elm Close for two years having moved from Kings Stag, where I lived for 47 years,

previously living in Hazelbury Bryan with my parents until I married. I also worked in Sturminster

Newton for 28 years so I am a local girl.

When I lost my husband 3 years ago I decided to downsize and bought a lovely quiet bungalow in Elm Close,

which is also very quiet, to spend my remaining years here. Nothing was brought to my notice through searches

when I was buying my house.

Most of the people living in Elm Close are of a certain age and want a peaceful retirement, which we are not going

to get if the proposed planning goes ahead. The road is narrow and access will be limited if it is used two ways.

The noise and dust from lorries using Elm Close will be awful, and also the increase in traffic from another 40plus

houses will make Elm Close a traffic highway.

I am also worried about the access to the railway being blocked off, as I walk my dog there twice a day.

I know that you have had other letters about this proposal so I won't go on and on, but I hope that the Planning

Officers will consider the residents of Elm Close when agreeing this planning proposal.

Yours sincerely

Iris Coombs {Mrs}
