HIGHWAY AUTHORITY RECOMMENDATION

WD/D/20/002427 ST OSMUNDS CHURCH OF ENGLAND MIDDLE SCHOOL, BARNES WAY, DORCHESTER, DT1 2DZ

In reference to the above planning application received 7th December 2020.

Before the Highway Authority can make its formal recommendation the following amendment(s) should be noted:

The plans appear to indicate the fence being positioned at the edge of the carriageway on the northside of Barnes Way on the southern boundary of the school. This is unacceptable the fence must be set back a minimum of 0.5m from the edge of the carriageway to avoid conflict with highway users (especially cyclists).

Point 6 on the site plan appears to show the fence extend out into the public highway, it is unclear what exactly this represents. The plan should be altered to remove any aspect of the proposal from the public highway and any associated gates must open clear of the public highway.
