

Mrs Sheila Bourton  
For Keep Wimborne Green

Matter no: 2 (KS2)  
474490

Matter 2/3

No

With regard to Wimborne and Colehill, new Neighbourhood development depends on the movement of the Football and Rugby Clubs and the allotment (see WMC3). Also, in respect of WMC5 Cranborne Road, a Risk Assessment on the Groundwater Protection Zone, a Drainage Consultant's report and the upgrading of Wimborne Sewage Treatment Works.

Various transport mitigation measures will also need to be put into place evidenced by Wimborne Traffic Model and Option Testing Reports.

CONCLUSION and to make sound

A detailed timescale for receiving the above mentioned reports and putting into place the required measures should be ascertained. Following this, the required works should be put into place BEFORE development takes place. particularly in respect of drainage mitigation (SUDS) within WMC5 .
