

One Bed 12 Unit 25m² DCC

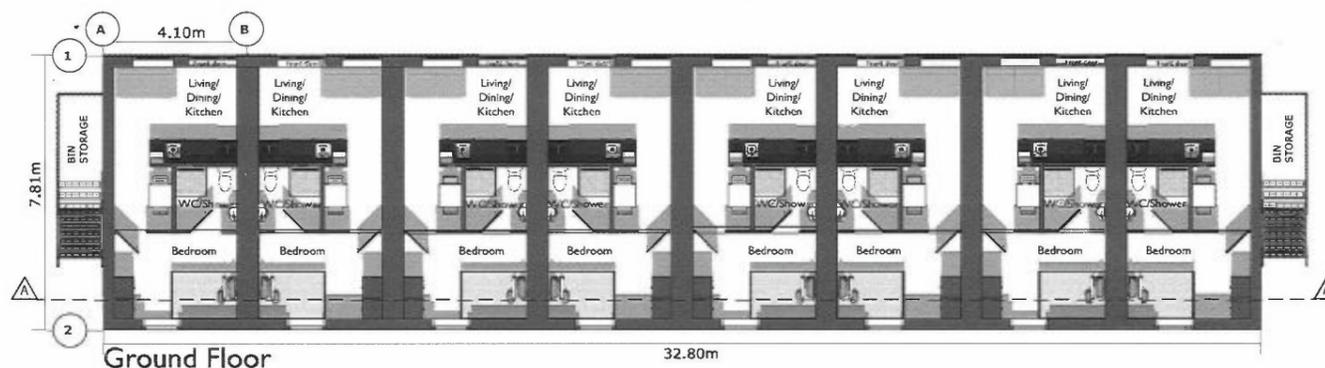

The 12 unit POD design has 8 units stacked side by side with a level access front door on the south elevation, opening to the living space and the bedrooms placed to the rear. The first floor units are orientated along an east-west axis. There are 2 proposed staircases at either end and a south facing shared deck space overlooking the site. The front (public) elevations are timber clad with Siberian larch on the ground floor, with a timber railing and deck on the first floor. The rest of the facade is treated with a dark profiled metal cladding.
