

One Bed Unit 50m² DCC

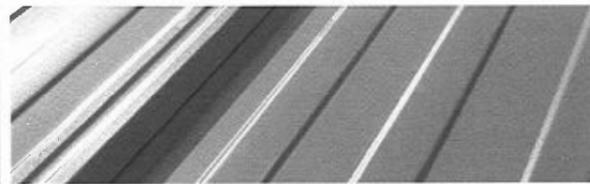

There are 8 proposed large living single bedroom units that are located on the east, west and south borders of the site. This units are intended to provide fully accessible living spaces with more secluded rear gardens. Six of these units are placed in the south-west corner of the site to take advantage of the existing trees and shrubs along the perimeter. The front elevation proposes Siberian larch timber cladding on the entrance door facade and the dark, profiled, metal cladding elsewhere.

Siberian Larch

Metal Cladding

KS Seamed Roof

PVC Windows
