NOTES:
 Existing quarries are labelled with italic text. Proposed quarries are labelled with regular (non-italicised) text.
 The approximate extent of the proposed excavated area of each quarry is shown by the use of two vertical lines, where this is possible to determine. Where this is not possible to determine a single vertical line is used to show the approximate location of the proposed quarry.
 Proposed quarries that lie in the foreground (up to 5km from the view point) are BCo1 Carrot Bank, BCo2 Doreys and BCo3 Povington. The other proposed quarries lie 6km or further from the viewpoint.
