

Information on Practical taxi driving assessments

In order to complete your application for a Private Hire or Hackney Carriage Drivers Licence you must complete a driver assessment, accompanied by an Approved Driving Instructor.

This is a 90 minute practical driving session using your own car. The route will include town and country driving. The car must be taxed, insured for you to drive and roadworthy. The instructor will also ask to see your driving licence to confirm that you are entitled to drive.

To book a practical driving assessment, please contact an instructor in your area from the list below:

Location	Name	Contact number
