Chris, see Lynn's suggestions below, she out now until Monday. Neil

Hi Neil.

See attached suggested amendments. I'm really not sure what would be achieved by further discussions with VWT at this stage when we don't have any definite measures to propose, and I think if we did we should try to get Henry Schofield, the senior guy at VWT, involved. I know him actually and could have a word with him if you like (I've avoided doing so up to now as I didn't want to upset Colin by seeming to go over his head).

Cheers,

Lynn
