

## Changes to Policy 11 Design Management: Blandford Forum

*This report outlines the amendments/additions required to clarify and strengthen Design Management Policy 11.*

*Amendments include:*

1. The extent of the Blandford Conservation area should be included on the most appropriate Policy map and the map number referenced within the policy itself).  
*NOTE: The policy maps currently only show the combined extent of the Design Areas (11 to 13). It is not possible to identify those areas to the South and West of Blandford Forum that fall outside the conservation area.*
2. Para 3.52 has been updated to reflect the current position of the CAA i.e. we are waiting for the proposed completion date from Kevin Morris, so in the meantime are estimating the end of the year.
3. Para 3.54 has been amended to included text about the retention of existing gardens, as this is necessary to keep the green pathways for wildlife going.
