Such sites will be dependent on a supporting housing needs survey and will still need to gain planning permission.</li> <li data-bbox="611 568 1653 751">➤ The potential yield from the sites was assessed by landscape and urban design officers. In assessing the extent to which the sites could contribute to the five year housing land supply, known affordable housing provider interest and/or HCA funding has been taken into account (see Table E.1). The likely delivery has also been checked with past delivery rates (see Table E.2) to ensure that there is no unrealistic step-change in delivery.</li> </ul>	<p data-bbox="1659 376 1998 512">Rural affordable sites have been mapped and checked against live planning permissions.</p>
