

Matter 5

5.1 20 years ago the requirement for affordable housing for Wool was negligible when looked into by the Think Global Group. The present demands are the result of previous policies where families were accommodated in Wool sometimes outside District, more recently from the Poole area – Turlin Moor and Creekmoor – with no connections with Wool. This has had an accumulative effect with ongoing demands as these families will now be considered, of course, local.

5.3 Gypsies have found their own location in this village within walking distance of schools and shops. It is not widely visible and as long as it is restricted to the 3 vans occupying the site it seems suitable and overseable. Possibly this Brownfield site between Woolbridge and Bovington should be regularised.
