The purpose of the report is to determine the applicant's fitness to drive hackney carriages/private hire vehicles. The council may need to make further enquiries if there is any doubt as to the applicant's fitness.

The medical standards for hackney carriage/private hire vehicle driver licences are higher than they are for ordinary driving entitlement. These standards are briefly explained below.

By Law a licence may not be issued if the applicant:-

- has had an epileptic fit attack during the last 10 year period and/or has taken anti-epileptic medication during that same period; or
- if corrective eye lenses are used, the corrective power is greater than plus 8 (+8) dioptres; or
- if there is complete loss of vision in one eye or corrected acuity of less than 3/60 (Snellen decimal 0.05) in one eye, applicants are barred in law from holding a Group 2 licence.(It is necessary for all drivers of Group 2 vehicles to be able to meet the prescribed and relevant Group 1 visual acuity requirements. Grandfather rights exist if Group 2 licence has been issued prior to 01.01.1991 in knowledge of monocularity); or
- is an insulin dependent diabetic, unless he/she held a valid licence on 1.4.91 and the Traffic Commissioner who issued that licence had knowledge of the condition before 1.1.91. or the C1/C1E exemption criteria are met.

In addition the licence may be refused if the applicant:-

- has had a myocardial infarction, CABG or coronary angioplasty
- suffers persistent arrhythmia
- has uncontrolled established hypertension
- has had a stroke, TIA, or unexplained loss of consciousness
- has had severe head injury with continuing after-effects, or major brain surgery

- is being treated for or has suffered a psychotic illness in the past 5 years
- has had alcohol or drug addiction problems in the past 5 years
- has serious difficulty communicating by telephone
- has diplopia or visual field defect
- has any other condition which would cause problems for hackney carriage/private hire vehicle driving unless the applicant can prove that he/she is otherwise medically fit to obtain a licence.

Important- Any essential, additional information should be given in a separate letter and attached.
