

## Health and safety at the site questionnaire

The Inspector will visit the site and will need to know what safety equipment and protective clothing to bring. The following questions indicate the type of information the Inspector will need about the site. Please supply any additional information on a separate sheet of paper.

1. Is the site uneven or does it present any other known risks? Is special footwear or any other Personal Protection Equipment required?

Normal walking footwear recommended.

Case officer strongly advises against crossing the A35 on the used route of the current footpath. This road crossing requires extreme caution and full Hi-Viz clothing. Note that the definitive route cannot be walked exactly A – B – C and the road crossing is slightly north west of B – B1. The used route, which was open and available at the time of the site visit, is shown on the attached plan 19/03.

2. Is there any likelihood of exposure to pets or other animals which may present a risk to the safety of the Inspector?

Proposed new route is popular with dog walkers. Current footpath B1 – C was across arable field at time of site visit but livestock are sometimes present.

3. Is the site remote and/or can it be seen from other highways or rights of way?

Not remote as the routes are close to Poundbury and the A35. Much of the routes can be seen from highways with the exception of the section H – I – J – K – L – M – N

4. Does the site have a good mobile phone signal or is there easy access to a public telephone should the emergency services be required?

Yes good O2 reception. There are no public telephones but point A and points D – E – F – G are close to residential areas / businesses.

5. Is the right of way easily accessible? Will arrangements for access by the Inspector need to be made in advance?

Yes, parking is available at Parkway Farm Business Park near point E and at the layout by point C. No prior arrangements are needed.

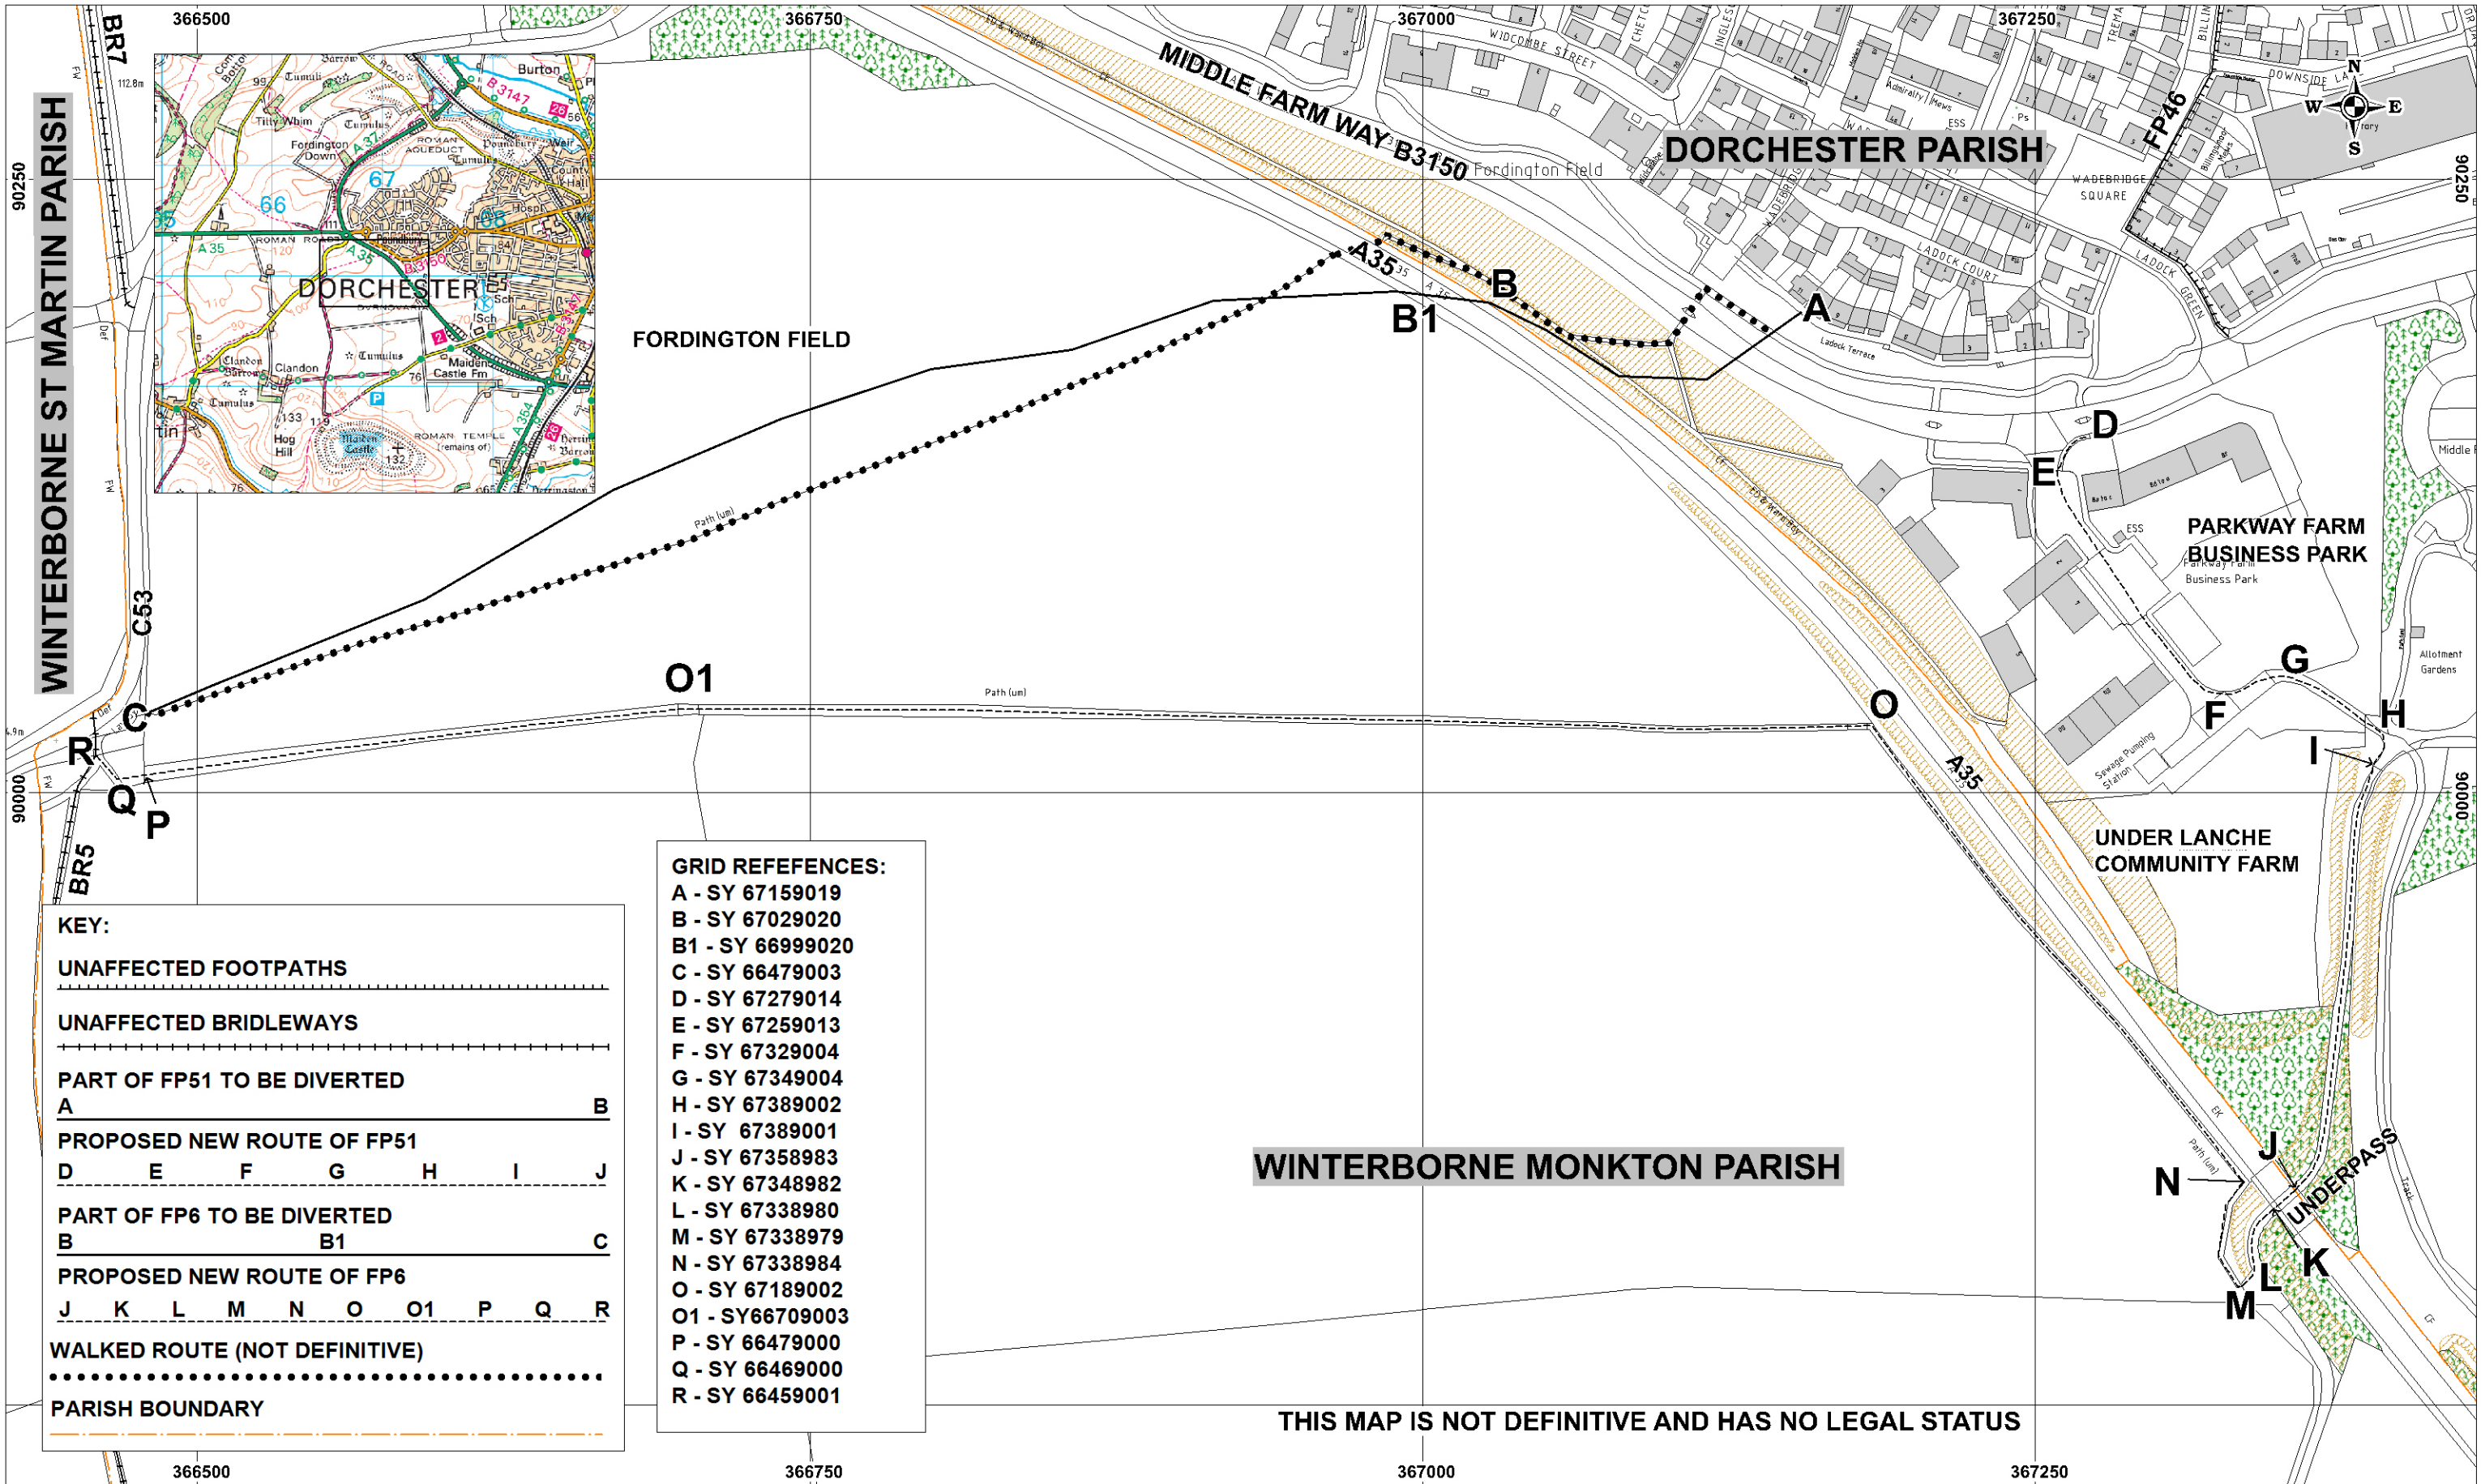

6. Are there any dangerous pieces of equipment or substances stored at any point along the right of way?

No

7. If there is any other relevant information which the Inspector should be aware of that is not covered in this questionnaire?

No
