						gradients and the changes proposed are likely to deter residents from voting due to nature of the terrain.									
						I would propose that St John's Church Hall, Ventnor Road, Underhill remains a polling station. It serves a large community and is the only constant polling station in the area. I have lived in Underhill 25 years and it has always served the electorate in this time. It is much more accessible by foot than PMH.									
						I would also propose that Portland Town Council, Portland Community Venue (PCV), DTS 1IN replaces Portland Masonic Hall, PCV is a well-used venue in the area and is placed in a well populated area. PMH is on the very outskirts of Portland and is not in a populated area.									
						If St John's Hall (POR2) and PCV (POR1) were approved it would be best placed to serve an area with steep inclines and gradients and would be the best									
						possible locations for the majority of residents. In the notes it states that PMH has a car park for those voting. Again, this is not to understand the area. Parking is a particular problem in the area and residents would not use their car for voting in fear of losing their car parking

Yes	2 of the 3 ward Councillors for Rodwell and Wyke	No	We make a couple of suggestions about polling stations in Rodwell and Wyke which if implemented would require consequential changes to some polling districts.			In 2019 the large three member Dorset Council Ward of Rodwell and Wyke has 6 polling stations. These proposals reduce that to three, with the consequence that many people will have to travel further to vote. This will reduce the turnout, and be especially difficult for people with disabilities or mobility issues	Yes	Not Answered	Yes	Not Answered	Yes	Not Answered	Not Answered		Most of these questions are not relevant to the text making two proposed changes we have entered above.
						It would mean people would be more likely to drive, and discriminate against those without cars. In particular we think there are two specific geographical issues in the middle									
						part of the ward: - the closure of the polling station at Moose Lodge on Chickerell Road will									
						deprive the rather self contained community around Chickerell Road in ROD2 of their only polling station. It is a steep hill and a long walk up to the Scout Hut on Rylands Lane, and there is no practicable bus route. We understand that Moose Lodge is still available, and it should continue to be used by the									
						community around it. - Those living in the east of the old Weymouth West Ward apart from those around Chickerell Road will also have a long and quite hilly trip to Rylands Lane.									
						but they are also distant from the only alternative on these plans at Hope United Reformed Church. We have lost of course the old polling station that served this area at the former St Nicholas Church on Buxton Road, but we think
