Dear Sir

Reference Number: 3/16/1460/CLE

I am aware that an application has been submitted at Anchor Paddock (Ref 3/16/1460/CLE). I know that it has been used as per the description of development for at least the last ten years.

I have been the owner and daily occupant of the directly neighbouring yard from which I have seen the clientele arriving and leaving Anchor Paddock on a regular basis and thus have witnessed the functioning of the business continuously over the last fourteen years. I have also personally been on site at Anchor Paddock and seen the development of the area.

I am also a close acquaintance of the family who own Anchor Paddock, and have developed a personal and business relationship with them and have been happy and supportive of the manner in which the business has been functioning over the last fourteen years. I have found them an extremely helpful family and without them I would never have managed to keep the road in the condition it has been kept in. Between us since they have been at Anchor Paddock the maintenance of the road, which is very important, has been maintained solely by us.

Yours faithfully
