2. Appendices A to F

The following Appendices detail the sites included in the 5 Year Housing Land Supply for Position Statement. It is important to note that where yearly trajectories are provided, these are indicative and based on previous developer input, and/or the Council's assumptions for reasonable expected housing delivery rates each year. The Council recognises that yearly delivery is liable to change, however the '5 year supply total' shown in each table is considered to be a reasonable expectation of delivery across the 5 year period.
