Comments on Greenhill Gardens via Citizen Space

Objector name / organisation	Please write your comments / representation in the box below - Comments
Adam Purchase	Keep greenhill gardens a green site
Aileen Massey	This is a beautiful area to escape the busy town if you don't drive. It improve mental health and alllow locals to mix with visitors
Alan Perkins	Greenhill Gardens is a beautiful place to sit and relax and view the stunning planting. The summer Sundays are brilliant with the organised music. There is no reasonable reason to develop this area as it will become an eyesore. Many visitors to Weymouth enjoy this lovely space
Alesja Yeremeyeva	<p>Good afternoon,</p> <p>It is crucial to consider the potential consequences of removing Greenhill Gardens from the list of local green spaces in the Weymouth neighbourhood plan. This could entail the complete removal of the park or its leasing to developers, as the local council has attempted on several occasions.</p> <p>I have lived in the area for 16 years, and I can personally confirm the fact that the Greenhill Gardens has been a significant tourist attraction for our town. Therefore, it is undoubtedly a crucial asset for local businesses and their families. I personally enjoy taking my children there for walk every single day for many years now.</p> <p>It is a venue at which locals of all ages, especially the elderly, have been seen to enjoy themselves and spend a significant amount of time. And may I highlight that - not only during the summer months but all year round. I am witnessing this myself all the time.</p> <p>Greenhill Gardens is of historical significance too. Since the Victorian era (!), it has functioned as a tourist attraction. US rangers descended Greenhill Gardens steps during the Second World War to protect our town and country from nazi aggression. This significant historical detail must be preserved for future generations to learn from.</p> <p>I would strongly encourage you to reconsider your position and include Greenhill Gardens in the list of local green spaces covered by Policy VW10. Preserving this essential green space is undoubtedly in the best interests of the local community of all current generations and those to come.</p>
Alice	Please protect Greenhill Gardens as a safe green space for locals and visitors to Weymouth

Alison Harmon-Beglan	'Why has Greenhill gardens been omitted from the Green Spaces list on pages 54-60? Please add this award-winning space, much appreciated by locals and visitors, to the list.'
Alison Leatherbarrow	Such a beautiful part of Weymouth seafront. It would be criminal to build on Greenhill Gardens.
Alistair Marsden	<p>Dear sir or madam, I hereby raise objections to the Weymouth Neighbourhood Plan. My objections are on the following grounds:</p> <ol style="list-style-type: none"> 1. The local green spaces that are to be protected should include Greenhill Gardens because they are clearly "very highly regarded as 'local green spaces'". As a valued and historic public space, Greenhill Gardens plays a significant role in the social, environmental, and cultural life of Weymouth and should be afforded appropriate protection within the plan. 2. I believe that they are the closest green space to the beach and they give significant relief from the abundance of hard landscaping that otherwise dominates. 3. Greenhill Gardens fulfills all of the criteria used to determine what can make it to this list (beauty, history, recreation, wildlife, tranquility and public access in close proximity to the community): <p>The reasons for Inclusion include the following:</p> <p>Historical and Cultural Importance: Greenhill Gardens is a well-established and cherished green space, with a rich history dating back over a century. It is an integral part of Weymouth's heritage and serves as a key attraction for both residents and visitors.</p> <p>Biodiversity and Environmental Value: The gardens provide essential green space within the urban fabric of Weymouth, supporting a variety of plant and animal life. The presence of well-maintained gardens, mature trees, and pollinator-friendly planting contributes to local biodiversity.</p> <p>Recreational and Community Use: Greenhill Gardens is extensively used by the local community and tourists for recreation, relaxation, and social gatherings. It offers scenic walks, seating areas, and panoramic views, enhancing the well-being of those who visit.</p> <p>Alignment with National and Local Planning Policy: The National Planning Policy Framework (NPPF) highlights the importance of protecting green spaces that are demonstrably special to local communities. Greenhill Gardens clearly meets these criteria and should therefore be designated as a Local Green Space.</p> <p>Threats to the Site: Without formal recognition and protection within the Weymouth Neighbourhood Plan, Greenhill Gardens remains vulnerable to potential development or changes that could undermine its character and accessibility.</p>

	<p>4. The Plan gives no reasons for excluding such an important asset for the community</p> <p>The parts of the plan that I am referring to are Policy W10: Local Green Space which is found on pages 54 to 60.</p> <p>The plan could be improved by:</p> <ol style="list-style-type: none"> 1. Including Greenhill Gardens in the local green spaces to be protected list 2. Publishing the specific reasons why some local green spaces are excluded
Amanda Valadas Marques	<p>I am objecting the proposal based on the environment impact it will have on the area.</p> <p>I suggest that a designated site should be found which is closer to transport links to suit council policy.</p>
Andrea Sanders-Reece	<p>Please include the Greenhill Gardens, Weymouth, in the protected green spaces for planning purposes. This is a unique green space and garden, easily accessible for all people, including those with disabilities. Along with many others, I regularly enjoy the gardens both as a destination and to amble through on the way to swim.</p>
Angela Sibley	<p>I often visit Weymouth for the seafront area especially. I'm sad to hear that Greenhill is not on the plan as a protected green space. A green area next to the beach is special.</p>
Anna Foggon-Belsham (1)	<p>My objections are as follows:</p> <p>Greenhill Gardens and the Greenhill Play Gardens (both spaces being very important to locals and visitors) have been omitted from the list of Local Green Spaces.</p> <p>The plan should therefore be amended to included both of these spaces.</p>
Anna Foggon-Belsham (2)	<p>Upon reviewing the Weymouth Neighbourhood Plan document, I have identified a significant concern regarding the exclusion of Greenhill Gardens from the designated Local Green Spaces (LGS) list. This omission raises questions about the plan's adherence to the basic conditions outlined in national planning policies.</p> <p>Grounds for Objection:</p> <p>Non-Compliance with National Planning Policy Framework (NPPF). The NPPF allows communities to designate areas of particular importance as LGS, affording them protection consistent with Green Belt policies. Greenhill Gardens, established in 1872, is a historic and recreational asset that aligns with the NPPF criteria for LGS designation. Its exclusion from the plan contradicts the NPPF's intent to protect spaces of local significance.</p> <p>Inconsistency with Sustainable Development Goals. One of the basic conditions requires that a neighbourhood plan contributes to</p>

	<p>sustainable development. Greenhill Gardens offers environmental benefits, supports biodiversity, and provides a communal space for social interaction and physical activity. Omitting it from protection undermines these sustainable development objectives.</p> <p>Potential Breach of Human Rights Obligations. The European Convention on Human Rights emphasises the right to respect for private and family life, which encompasses individuals' well-being derived from their environment. The potential future development of Greenhill Gardens, facilitated by its exclusion from the LGS list, could adversely affect the community's quality of life, potentially breaching human rights obligations.</p> <p>To address these concerns, I propose the following modification to the Weymouth Neighbourhood Plan: Inclusion of Greenhill Gardens in the Local Green Spaces List: Amend the "Local Green Spaces" section to incorporate Greenhill Gardens as a designated LGS. This inclusion will align the plan with national policies, promote sustainable development, and uphold human rights commitments by ensuring the garden's protection for current and future generations.</p> <p>Conclusion: The exclusion of Greenhill Gardens from the Weymouth Neighbourhood Plan's LGS list is a significant oversight that may lead to non-compliance with national and international obligations. I urge the Dorset Council and the independent examiner to consider this objection and modify the plan accordingly to include Greenhill Gardens as a protected Local Green Space.</p>
Anne Mercer	Green hill gardens needs to be protected as a green space as it is such a calm and beautiful garden. I have lived in Weymouth all my life and have always enjoyed being in the gardens.
Annette Turner	I object. Loss of treasured amenity. This area is visited regularly for social events.
Anthony Jones	<p>Dear Sir or Madam,</p> <p>Having been born in Weymouth and resident for 86 years, your response and explanation to following observations would be most appreciated.</p> <p>Upon reviewing the Weymouth Neighbourhood Plan document, I have identified a significant concern regarding the exclusion of Greenhill Gardens from the designated Local Green Spaces (LGS) list. This omission raises questions about the plan's adherence to the basic conditions outlined in national planning policies.</p> <p>Grounds for Objection:</p> <p>Non-Compliance with National Planning Policy Framework (NPPF). The NPPF allows communities to designate areas of particular importance as LCS, affording them protection consistent with Green Belt polices. Greenhill Gardens established in 1872 a historic and recreational asset that aligns with the NPPF criteria for LGS designation. Its exclusion from the plan contradicts the NPPF's intent to protect spaces of local significance criteria for LGS designation. Its exclusion from the plan contradicts</p>

	<p>the NPPF's intent to protect spaces of local significance.</p> <p>Inconsistency with Sustainable Development Goals. One of the basic conditions requires that a neighbourhood plan contributes to sustainable development. Greenhill Gardens offers environmental benefits, supports biodiversity, and provides a communal space for social interaction and physical activity. Omitting it from protection undermines these sustainable development objectives.</p> <p>Potential Breach of Human Rights Obligations. The European Convention on Human Rights emphasises the right to respect for private and family life, which encompasses individuals' wellbeing derived from their environment. The potential future development of Greenhill Gardens, facilitated by its exclusion from the I-GS list, could adversely affect the community's quality of life, potentially breaching human rights obligations.</p> <p>To address these concerns, I propose the following modification to the Weymouth Neighbourhood Plan:</p> <p>Inclusion of Greenhill Gardens in the Local Green Spaces List: Amend the "Local Green Spaces" section to incorporate Greenhill Gardens as a designated LGS. This inclusion will align the plan with national policies, promote sustainable development, and uphold human rights commitments by ensuring the garden's protection for current and future generations.</p> <p>Conclusion:</p> <p>The exclusion of Greenhill Gardens from the Weymouth Neighbourhood Plan I s LGS list is a significant oversight that may lead to non-compliance with national and international obligations. I urge the Dorset Council and the independent examiner to consider this objection and modify the plan accordingly to include Greenhill Gardens as a protected Local Green Space.</p> <p>Regards Anthony Jones</p>
Antony Tunbridge	<p>Policy W10 Local Green Space, pages 54-60</p> <p>Objecting to the exclusion of Greenhill Gardens in Table A Weymouth Neighbourhood Plan Local Green Spaces</p> <p>These gardens are popular with young and old. A great many people have through voluntary groups spent many years enhancing and maintaining, in conjunction with Weymouth Town Council, the gardens for future generations. Is there any point in having Friends groups if all their hard work can be just cast aside.</p> <p>If Greenhill Gardens are lost to development I feel that this would be vandalism on a grand scale. Greenhill Gardens should be included on the list of Local Green Spaces.</p>
AP Sanham	<p>Upon reviewing the Weymouth Neighbourhood Plan document, I have identified a significant concern regarding the exclusion of Greenhill Gardens from the designated Local Green Spaces (LGS) list. This omission raises questions about the plan's adherence to the basic conditions outlined in national planning policies.</p> <p>Grounds for Objection:</p>

	<p>Non-Compliance with National Planning Policy Framework (NPPF). The NPPF allows communities to designate areas of particular importance as LCS, affording them protection consistent with Green Belt policies. Greenhill Gardens established in 1872 a historic and recreational asset that aligns with the NPPF criteria for LGS designation. Its exclusion from the plan contradicts the NPPF's intent to protect spaces of local significance criteria for LGS designation. Its exclusion from the plan contradicts the NPPF's intent to protect spaces of local significance.</p> <p>Inconsistency with Sustainable Development Goals. One of the basic conditions requires that a neighbourhood plan contributes to sustainable development. Greenhill Gardens offers environmental benefits, supports biodiversity, and provides a communal space for social interaction and physical activity. Omitting it from protection undermines these sustainable development objectives.</p> <p>Potential Breach of Human Rights Obligations. The European Convention on Human Rights emphasises the right to respect for private and family life, which encompasses individuals' wellbeing derived from their environment. I urge the Dorset Council and the independent examiner to consider this objection and modify the plan accordingly to include Greenhill Gardens as a protected Local Green Space.</p>
Archie	Greenhill Gardens is really important to Weymouth we say NO to building houses there SAVE GREENHILL GARDENS
Arthur Dixon	<p>I understand that Greenhill Gardens has been excluded from the list of Local Green Spaces, inclusion on which provides a National level of protection over and above the existing, Local protection.</p> <p>Greenhill Gardens is possibly the most important Borough garden in Weymouth, and as such, MUST be given maximum possible protection.</p> <p>Please add Greenhill Gardens to the list of Local Green Spaces.</p>
Barbara Jarman	Object. Greenhill Gardens used by locals and holiday makers and should be kept as a free attraction

Barbara Smith	I object to any future development in the area of Greenhill Gardens as this is a much loved and cherished part of the Weymouth community.
Barbara Woodward	<p>I am a local lady born in Weymouth and have enjoyed visiting the Greenhill Gardens and walking with my dogs on the lead it the most relaxing beautiful garden space so unique to be so close to the sea and so peaceful</p> <p>This would impact my mental health to loose this calm beautiful space</p> <p>I oppose those plans to possibly close these gardens</p> <p>Also we have many visitors whom I've seen frequent these gardens for pleasure strolling and using the cafe which is on site</p> <p>I believe this town of Weymouth to be getting smaller in the way of these calm green spaces and am desperate to conserve them for the sake of the people's way of life and nature</p>
Barry Graham	<p>I am concerned that the draft Neighbourhood plan document fails to mention Greenhill Gardens from the local green spaces list. This omission raises questions about the plan's adherence to the conditions outlined in national planning policies.</p> <p>The NPPF allows communities to designate area of particular importance as LGS, affording them protection consistent with Green Belt policies. Greenhill gardens, established in 1872, is a historic and recreational asset and aligns with NPPF criteria for LGS designation. It's exclusion from the plan contradicts the NPPF's intent to protect spaces of local significance.</p> <p>I suggest that the Weymouth Neighbourhood plan's LGS list is a significant oversight that may lead to non-compliance with national and international obligations. I urge the Dorset Council and independent examiner to consider this objection and modify the plan accordingly to include Greenhill Gardens as a protected Local Green Space.</p>
Benjamin David Bond	Regarding Policy W10 - Local Green Space, pages 54 to 60, there is no mention of Greenhill Gardens, situated between Weymouth seafront and Preston Beach Road. Greenhill Gardens are a vital, well-used, and popular amenity for the community, and should be included in the neighbourhood plan to ensure it is safeguarded against any development or change of use in the future.
Bernard Bryer	<p>Greenhill Gardens.</p> <p>This green space does NOT appear on the list of Local Green Spaces and is not mentioned in the Plan.</p> <p>The Gardens are a vital component of the local area, giving pleasure to local inhabitants and, of greater import, to visitors.</p> <p>I use the Gardens frequently as I am disabled and they are a source of pleasure to me and my family.</p> <p>My wife is locally born and considers it an integral part of her heritage and I, although a relative newcomer of some 60 years residence, wholeheartedly agree.</p> <p>When compared with many of the green spaces listed, the Gardens have a much greater impact on more people and are a visible sign of Weymouth's seaside heritage.</p> <p>Any diminution of access to this wonderful green lung will have an effect on the local residents and, most importantly, on the visitors on whom this town depends.</p>

	<p>The Gardens should be included on the plan. I understand the difficulties of maintaining the gardens at this, with various problems like slippage and age decay, but omission from the plan cannot be a 'back door' to developers!</p> <p>B G Bryer</p>
Beryl Wells	<p>I am objecting to the plan as Greenhill Gardens is a park which is near to the town centre and provides tourists with a beautiful garden to walk in. Weymouth sea front does not have any other gardens. They enhance the natural environment providing a habitat for birds.</p>
Bev bull	<p>Not enough green spaces as it is and will impact on local community if houses are built on it</p>
Bev Cousins	<p>Protect Greenhill gardens....</p>
Brian Newton	<p>Greenhill Gardens is a wonderful space for the local community and farther afield to people like myself who use the gardens to walk at times during the week where I stop for a hot drink and can sit and watch the sea and coast. It is a valuable open space and needs to be kept for the use of all. The relevant section of the Neighbourhood Plan is Policy W10: Local Green Space pages 54 to 60. The gardens need to be protected from any development and I support the gardens by objecting to the Weymouth Neighbourhood Plan's. The gardens are not protected by the national policy for Green Belts and can be removed from the local planning policies protecting it from development so I would urge the council to add Greenhill Gardens to its local green spaces for protection from development.</p>
Brigitte Denys	<p>The Greenhill gardens should be safe and remained looked after because is part of Weymouth history and cultural space. It is used by residents and tourists all year round. It looks beautiful and the view, when you sit and listen to the band playing on a lovely saturday afternoon is magnificent. Please, make sure that Greenhill gardens are there for the future. Thank you</p>
Buddhadasa Nayaka	<p>Greenhill Gardens. I'm sending my objections to allow any kind of changes to this outstanding beautiful land space. This gardens area should be left as it is now, without handing over to developers.</p>
Carol Bown	<p>Upon reviewing the Weymouth Neighbourhood Plan document, I have identified a significant concern regarding the exclusion of Greenhill Gardens from the designated Local Green Spaces (LGS) list. This omission raises questions about the plan's adherence to the basic conditions outlined in national planning policies</p>
Carol Fitzpatrick	<p>I object that greenhill gardens are not protected from future development and might not continue to be maintained.</p>
Carol Griffiths	<p>Understanding fully the need for additional housing, I am aware of many empty properties in town. But green spaces such as Greenhill gardens are precious and should be protected</p>
Carol Holt	<p>Objection - you could not build houses on greenhill.</p>
Carol James	<p>I am OBJECTING to the plan. My grandchildren love visiting the gardens with me and looking at all the colourful flowers. There isn't another space like it within easy walking distance and that has suitable wheelchair access, that has the same beauty.</p>

	<p>The gardens are ideal for all the family.</p> <p>They also love having picnics there while the live music is on. It doesn't matter what it is.</p> <p>They now appreciate all genres of music because of the variety that is performed in the gardens.</p> <p>One of their treats is ice-cream after the picnic from the cafe before we leave.</p> <p>It would completely spoil the sea frontage and leave a big hole to those who have had many special times and made memories there.</p>
Carol Watson	'Why has Greenhill gardens been omitted from the Green Spaces list on pages 54-60? Please add this award-winning space, much appreciated by locals and visitors, to the list.'
Carole Voysey-Morris	POLICY W10 Local Green Space - Greenhill Gardens need to be protected and added to the list. I object to this omission and suggest that the Gardens be added to the list.
Carolyn Stuart	Objecting. Please include Greenhill Gardens.
Cathrin Dunford	<p>I moved to Weymouth with my parents in 1951 and the Greenhill Gardens have always been a favourite spot for local residents as well very grateful and appreciative holiday makers. Since the formation of the Friends of Greenhill Gardens the area has become even more popular - what could be better than a Sunday afternoon sitting on the grass with picnics, refreshments etc. and music playing from the bandstand and when the appropriate music is played - dancing as well - able bodied and disabled enjoying the afternoon together. Donations are willingly given by the public (local and otherwise) to support the cause of keeping the gardens in bloom in partnership with the town council. The cuckoo clock has been restored (again with the help of public donations) - I as a youngster listened to the cuckoo as did my children and grandchild. This is good publicity for Weymouth and the surrounding area, please, please do include the Greenhill Gardens as a much needed green area with lovely views of the bay and coast. You can get cafes and restaurants anywhere but not the much appreciated jewel in Weymouth's crown.</p>
Charlotte Abberley	<p>The relevant section of the Neighbourhood Plan is Policy W10: Local Green Space which is found on pages 54 to 60.</p> <p>I'm objecting on the grounds that Greenhill Gardens are not included as protected space. In my opinion they should be protected from development and there is an obligation to retain and manage them.</p> <p>The plan could be modified to include.</p>
Charlotte Gilbert	As a regular visitor to Weymouth for holidays we often visit enjoy Greenhill Gardens. It is beautifully maintained and seems to be an inherently important part of the Weymouth seafront, enjoyed by visitors and locals alike throughout the year. Please ensure that this space is preserved for all to enjoy.
Chris Brian Stottor	Greenhill Gardens Weymouth should be included in the list of Green Spaces
Christin	In the list of 49 local green spaces in Weymouth, Greenhill Gardens is missing. This means that the gardens will not be protected by the national policy for green belts and can be removed from the local planning policies protecting it from development. The gardens are a crucial part of Weymouth and its history so I am writing to protect the gardens and have it recognised as a Local Green Space.

Christine Taylor	<p>I am horrified that in pages 54-60, Greenhill Gardens has been omitted from the Green space list.</p> <p>I can only assume that this is a massive error and an omission in error. Nobody in their right mind would leave off the beautiful gardens that I am sitting in right now from the list.</p> <p>It can under no circumstances be left unprotected .</p> <p>Thank you for listening</p> <p>Christine Taylor</p>
Clair Amos	<p>Green Hill gardens needs protected status, a haven for wildlife, people have been enjoying them for years, would be terrible to lose them to development</p>
Claire Ford	<p>Page 54-60 concerning Greenhill Park, Weymouth</p> <p>I am writing to object the decision to not have Greenhill Park on the neighbourhood plan. This Greenhill park is an important part of Weymouths history and to loose this to potential housing would damage the benefit this garden gives to the Weymouth and outer communities. It's a joy to wander round and is part of what makes Weymouth a great place to visit. We need green spaces and community. The cafe offers community spirit to customers and loose that will effect mental and physical well-being. Being a gardener I know what joy gardens bring.</p>
Claire Polley	<p>I am at a loss as to why the gardens would not be protected...other than a money making scheme. Keep Weymouth beautiful and encourage tourists please!!</p>
Claire Wall	<p>I am objecting to Greenhill gardens ever been built on, this is a well visited area for locals and visitors and is a top tourist attraction. To build houses or any other planned buildings on this site would be a tragic loss for Weymouth.</p> <p>Building plans for our carparks is also a strong objection.</p> <p>There is plenty of waste Greenland and brown which should be looked at but stay away from our much loved Greenhill gardens.</p> <p>We all walk round these beautiful gardens and get that much needed mental wellbeing, peace and tranquility space from this area.</p> <p>To build on this area would mean mental health taking a down spiral costing councils much more in revenue on health and social care for the generations to come.</p>
Cllr Jon Orrell	<p>WP 10 green policy has missed several important sites.</p> <p>Namely Greenhill Gardens- including chalets , tennis court and bowling green.</p> <p>Also land behind Palm House cafe by the harbour.</p>

Clare Perkins	<p>How utterly stupid. Greenhill gardens should be protected. It is in constant use. A very small space of pure delight. It is in constant use. Concerts in the summer months with high attendance. Used by tourists and permanent residents. Not much green space in Weymouth.</p> <p>We need to keep tourists coming. The beach is lovely. The town is dire and in need of urgent regeneration.</p> <p>Protect Greenhill Gardens.</p>
Coker Levana	<p>Objecting to the gardens being demolished.</p> <p>They are beautiful and a lovely place for a walk.</p> <p>Also a fine habitat for some wildlife.</p>
D Mitchell	<p>These gardens are well maintained, with beautiful plants, to a high standard all year round.</p> <p>There are plenty of seats to sit and while away some peaceful moments, with a glorious view.</p> <p>A kiosk to purchase a cuppa or ice cream.</p> <p>A place for meet ups and conversations, away from the hustle bustle.</p> <p>Also for some wonderful Sunday afternoon music throughout the summer that is well attended.</p> <p>WHY, would anyone want to build on this green and pleasant land?!</p>
Damian Lockie	<p>To allow any kind of development on the gardens at Greenhill will be regretful for future generations. The gardens should be protected for all to enjoy for many years to come to remove such a green and pleasant area from the seafront serves no purpose as this whole area is a leisure area already and will reduce the enjoyment of the area by both visitors and locals alike.</p> <p>Other brown field sites should be considered well ahead of these gardens.</p> <p>This area should be protected in the neighbourhood plan.</p>
David Bowman	<p>Greenhill gardens in Weymouth must be included on this list of Local Green Spaces.</p> <p>It is a lovely place to visit and provides a relaxing area away from the busy seafront, especially during the height of the summer.</p> <p>From an accessibility perspective, it is great for individuals who are unable to access the beach via the steps, but still want a peaceful way to enjoy the outdoors.</p>
David Hallett	<p>I strongly object to the plan to make Greenhill Gardens available for planning/ building. The area is critical to the character of Weymouth, it is a rare green space along the beach front used by many as a walk through or place of quiet and reflection. As a garden that is tended it attracts many visitors who come each year to see the floral displays. It is also a peaceful vantage point to look out to sea for firework displays or aerial displays .</p>
David Macauley	<p>I am objecting to the Weymouth Neighbourhood Plan and specifically the exclusion of Greenhill Gardens from the protected green spaces. This is, in my opinion, one of Weymouth's finest community amenities and should be protected as such.</p>

David Richardson	<p>I would like to register my extreme displeasure at the possible building of flats on greenhill gardens.</p> <p>This is mine and many peoples favourite location in the town, a beautiful and tranquil place to relax.</p> <p>The amount of work which has been done by the team to restore the clock and maintain the gardens cant be wasted.</p> <p>Locals and tourists alike both love the area,i urge the powers that be to have a rethink.</p>
David Wade	<p>I'm objecting to the Local Plan. Greenhill Gardens including the Bowling Club is not currently identified as a green space. The Bowling Club has 70 members and is open to members of the public under the lease conditions for the club from WTC. The last season we had over 400 people as casual players and 20 touring clubs attending resulting in over another 480 people being in the area. This contributes to their care and wellbeing as well as providing the opportunity to enjoy the adjacent delights of the Greenhill Gardens. The whole area should be included in the LP and identified as a green space.</p>
Dawn Barnes	<p>I am objecting to the possibility of Greenhill Gardens being used as a development site. It was bequeathed as an area that people could enjoy as an open space. It is extremely well used by locals and visitors throughout the year and is a focal point. Please protect it from any residential development in the future.</p>
Dawn Dallow	<p>I work with young adults with learning difficulties and we take a weekly wellbeing walk to thr gardens, they are very good for our mental health. I would be absolutely gutted if the gardens were turned into housing</p>
Debbie Morgan	<p>Greenhill gardens are a wonderful green space. Walking here is great for mind and wellbeing, they need to be looked after and treasured.</p>
Deborah Clark	<p>THIS ARE NEEDS TO BE PROTECTED</p>
Deborah Darvell	<p>Neighbourhood spaces Green spaces, section 8</p> <p>I have lived in Weymouth my whole life (nearly 67 years) Greenhill Gardens have always been a part of my life. We need all the protected Green spaces we can have to Protect our status as no 1 beach in the UK. To help reduce the atmospheric pollution. To have safe protected areas for our future generations to play, grow and become better positive citizens</p>
Denise Taylor	<p>I am objecting as we haven't a lot left in without with all the new developments being built, we are tired of trying to protect these valuable sites, just because they make no money they bring a lot of beautiful benefits to the town, we haven't got much anymore so why is greed winning over what is the right thing to do, these gardens are a valuable asset to Weymouth and surrounding areas, they</p>

	are tranquil and help mental health for the community, governments and councils need to start listening to the people, so much is taken away from us let's leave some for all to enjoy
Derek Downton	Many wonderful/valuable Weymouth assets have been vandalised and given away in the past the beautiful Greenhill Gardens which are a credit to Weymouth must be protected for us and future generations!
Derek Luckhurst	<p>I am objecting to the plan on the following grounds:</p> <p>1) Greenhill Gardens has been omitted from the list of Local Green Spaces</p> <p>2) The Greenhill Play Gardens (Sluice Gardens) have also been omitted from the list of Local Green Spaces.</p> <p>The plan should therefore be amended to include these two much loved local spaces.</p>
Derek Tate	Why has Greenhill Gardens been omitted from the table of Green spaces in the plan. Please ensure that it is added.
Diane Day	<p>I am dismayed to discover that, despite positive reference elsewhere in the document, Greenhill Gardens is not on your Schedule 1 (Weymouth Neighbourhood Plan) Local Green Spaces on p 67.</p> <p>Why is this?</p> <p>Is it just a terrible error?....or is there some underhand plan for the area?</p> <p>I am just one resident who walks the gardens every day and who gains pleasure and benefit from the beautiful displays and engagement with other visitors. This is not to mention the fabulous summer concerts enjoyed by residents and visitors alike. Indeed, for some visitors, their visits are planned deliberately around this pleasure and to change the gardens to some other use would have a huge impact on visitor enjoyment of Weymouth and eventually would impact on visitor numbers.</p> <p>I do hope that this oversight will be rectified swiftly</p>
Diane Leverton	Why has Greenhill Gardens been omitted from the Green Spaces list on pages 54-60? This space is so much appreciated and valued by residents and visitors and must surely be included in the list.
Diane Restall	Make Greenhill Gardens a protected area. The garden provides a quiet place with beautiful gardens enhancing people's mental health.
Dillon Howarth	<p>Greenhill Gardens should be included as part of the neighbourhood plan. It is a fantastic facility for both tourists and locals and a welcome green space as you walk along the seafront. Please don't lose it.</p> <p>I walk through it at least 4 times a week and it never fails to delight and provide a sense of sanctuary.</p>
Donna Souster	I object to Green Hill Gardens not on the green belt list. These gardens should have special protection against being built on. The gardens are a wonderful green space for people to enjoy. The flowers are amazing and are good for wildlife and mental wellbeing. In the Summer we regularly attend the music events which my husband enjoys as he has young onset Alzheimer's.

Dr John Cadman	<p>I wish to object to Weymouth Neighbourhood Plan as it currently stands on the grounds that Greenhill Gardens has been omitted from the list of 49 local green spaces which are to be given protected status under the national policy for Green Belts. Without this protection Greenhill Gardens will be vulnerable to redevelopment in the future. This would be wholly inappropriate for the following reasons.</p> <ul style="list-style-type: none"> - Greenhill Gardens was created by the Wilton Estate, a private initiative, and handed over to local council as a gift, stipulating that it was to be used for the “benefit of the inhabitants of Weymouth.” - the Gardens have been a feature of Weymouth since 1902 and given pleasure to many generations of local residents and visitors to Weymouth. As an exceptionally well-known and iconic feature of the town the Gardens play a significant part in attracting holiday makers to the area. - the Gardens are meticulously well tended and award winning. - the Gardens are well used every day by people of all ages and in the summer month draw large crowds for various staged events - there is no other substantial piece of beachside greenery between Alexander Gardens and the Preston Road/Bowleaze Cove way island. Redeveloping Greenhill Gardens would have a severe detrimental aesthetic effect on the South West Coastal Path at this point. <p>While there may be no plans to redevelop the area at present there is no guarantee that this will remain the case, particularly in the current financial climate. It is therefore imperative that the Neighbourhood Plan be amended to afford permanent protection to Greenhill Gardens, so that they may be enjoyed by future generations in the way they were originally intended.</p>
Dr Osama Khadour	<p>Dear Sir/Madame</p> <p>I strongly object to excluding Greenhill Gardens from the protected local green spaces in the proposed neighbourhood plan.</p> <p>I am not privy to all the information or documents about the ownership of the gardens. Should this information be provided, I will be willing to seek legal advice.</p> <p>The gardens are an iconic and historical site with a vital location near the sea. They have been used to the benefit of the whole community of Weymouth. They are an important attraction for tourists, a place for playing sports, community activities, and music festivals in the summer.</p> <p>The gardens are in a conservation area, and the beach bungalows under the tennis courts and bowling green are grade 2 listed by English Heritage.</p> <p>We understand that there are difficulties securing the funds for maintaining the gardens. However, that can be negotiated, and the gardens could be saved.</p>

	<p>I would appreciate it if you would please consider my objection.</p> <p>Yours sincerley</p> <p>Dr Khadour</p>
Dr Robin Rowles	I am appalled that Greenhill Gardens are not included as part of Weymouth's green spaces that must be protected. These gardens provide a beautiful backdrop to the beach as well as a convenient area in which to admire the beach and bay. To change the area to anything else would be sacrilege. Perhaps a better plan would be to turn other similar areas into gardens as well.
Elizabeth Dance	Objection. I would like Greenhill Gardens protected in the local plan. This is a lovely open space enjoyed by locals and visitors. The protection of Greenhill gardens has not been mentioned in the local plan.
Elizabeth Brenda King	Objecting on the grounds that Greenhill Gardens have not been identified as a protected green space.
Elizabeth Burton	Oh my. Whoever wrote the Neighbourhood Plan must be making a lot of money. Greenhill Gardens remain the most beautiful part of Weymouth, providing rest, health and wellbeing to residents of all ages. Do not touch it, please.
Elizabeth Townsend	Greenhill gardens should be preserved for the use of the many residents and visitors and be protected from any housing or development future plans.
Elizabeth Wilson	<p>Submission Plan Section: W.10 Policy: Local Green Spaces</p> <p>Objection on the grounds that Greenhill Gardens are omitted from the list of Local Green Spaces.</p> <p>Greenhill Gardens must be included in the list of green spaces</p>
Emma Logan	Object to the Greenhill gardens being changed. Please keep this area as it has always been. When I lived in Weymouth from birth to my late 20s I would sit and listen to the sea here . When I come and visit I still.do the same . Don't change the area .
Estelle Toms	Don't you dare build on sny garden. And certainly not Greenhill. A crown on the seafront
Frank Swinton	I was astonished to see that Greenhill Gardens are not included in the list of designated green spaces in Weymouth. Please please designate Greenhill Gardens as a green space to preserve them for the residents of the town and the tourists that visit.
Gemma Dunford-Edwards	I think the gardens should be proreted for the wild life it attracts. To protect the seafront looking tacky. It's a place the locals can go to for free outside family fun picnics that don't include sand. It's beautiful and classic.

Gemma Eryilmaz	In the list of 49 local green spaces in Weymouth, Greenhill Gardens is missing. I am writing to appeal and respond to this in the hope that the gardens can be added to this list and be protected. It is a beautiful and crucial part of Weymouth and Weymouths history. It is a family friendly spot which I love to take my daughter for regular walks, she (and I) are always greeted with friendly faces and positive energies. Elderly residents frequently visit the gardens and feel comfortable enough to converse socially and it encourages them to go out regularly. I'm writing to protect the gardens and have it recognised as a Local Green Space.
Geoffrey Frederick Barlow	There is obviously a mistake in the list of Local Green Spaces in that one of the most important and attractive green spaces, namely Greenhill Gardens, is not listed. We use Greenhill Gardens a lot. We usually visit the gardens three or four times each week. The list of Local Green Spaces I object to is on pages 54 to 60. My objection would be overcome by amending the list to include Greenhill Gardens.
Geoffrey Gallyon	Such a lovely part of Weymouth which adds so much beauty and area of relaxation away from the Madding Crowd of visiting holiday makers
George Tranda	The popular Greenhill Gardens should be included in the list of local open spaces in Schedule W10 Pages 54-60
Georgina Kellaway	The Greenhill garden site must be protected. It's a beautiful place
Gerrit Tieleman	<p>I wish to express my sincere objection to Neighbourhood Plan is Policy W10: Local Green Space which is found on pages 54 to 60. Greenhill Gardens should be on the protected list and NOT be sold off and used for building dwellings of any sort.</p> <p>Greenhill Gardens is part of the local sea front that should remain as is as it attracts many locals and tourists alike.</p> <p>Sincerely,</p> <p>Gerrit Tieleman.</p>
Gill Aplin	<p>I have been a local resident for over 70 years , I love and respect Weymouth !</p> <p>However, I do not agree for our green areas to be replaced with unnecessary buildings ! We have more than enough new home developments within the surrounding areas !</p> <p>To encroach on our wonderful Victorian heritage would be an absolute disgrace. We need our towns personality! Sadly this is being taken away with hideous modern developments!</p> <p>I vote to keep Greenhill gardens as they are - it's a place that was inherited years ago for the people of Weymouth - let it be a place for Weymouth residents and visitors to be grateful and proud of!</p> <p>A place for our future families to also be grateful and proud of !</p> <p>We do not want another block of holiday flats to take over our green areas! - bringing in more pollution and ruining our historic past !</p> <p>Keep our green areas ! - keep Greenhill gardens as they are - let's be proud of them and look after them !</p>

Glenda Fraser	The Greenhill Gardens have “accidentally” been omitted from the protected green spaces. I strongly object to the Council not giving this special beautiful space its correct designation.
Glenys Burrows	<p>I refer to the Weymouth Neighbourhood plan 2021-2038, in particular policy W10, Local Green Space.</p> <p>I agree with the plan to protect local green spaces but I object to the fact that Greenhill Gardens are NOT included on the list of 49 spaces that are proposed for designation as local green spaces (page 54-61).</p> <p>Greenhill Gardens are a massively important space for the local community and are well used by local residents and visitors alike. Greenhill Gardens are a popular meeting point for locals, of which a high number are retired. To have this facility to meet with other people is significant in combatting loneliness and improving mental health. Just sitting in the Gardens amidst the beautiful flower beds uplifts the soul and makes me feel happy. You must protect this space, I rely on it and would be exceptionally sad if greedy developers were to get their hands on it.</p> <p>Furthermore, it shows off Weymouth in a positive light and is very popular with tourists. We do not want the eyesore of ugly houses or blocks of flats replacing it. It is dear to so many hearts!</p> <p>It is an absolute travesty that Greenhill Gardens are missing from the list of 49 proposed locations for protection. Dorset Council must see the bigger picture of how beneficial this place is to so many and not be swayed by the upkeep costs of the gardens or the short term gain of selling land to developers.</p> <p>Please add this special place to the list of local green spaces that need your urgent protection.</p> <p>Thank you.</p>
Glyn Jenkins	<p>Good good grief are you serious about this?</p> <p>I'm aware you'll save a bit on maintaining and planting but come on.</p>
Glynis Eynon	I am objecting strongly to the beautiful Greenhill Gardens not being included in the list of Local Green Spaces - Policy 10, pages 54-60. The gardens are one of Weymouth's biggest assets and must be protected.
Graham Field	<p>Policy W10, pages 54 to 60</p> <p>Greenhil Gardens are not listed in the Green Spaces that require protection. This gem on the seafront needs to be preserved.</p>
Gregory Coleman	I'm a visitor twice a year Greenhill gardens is special place where i go and relax in this lovely place

Harry Walton	I am objecting to the neighbourhood plan because Greenhill Gardens is not included in the list of 49 local green spaces and there loses the protection from development it would otherwise gain. The solution is very simple. Include Greenhill Gardens in the list of green spaces.
Heather Simpson	I am totally objecting personally to Greenhill Gardens not being included in the protected 'green' areas of the plan. I am in my 70's and have lived in Weymouth all of my life. Growing up on [REDACTED] I have witnessed much change within Weymouth, not always for the good. The Greenhill Garden area has always been a part of Weymouths history. Every year, for as long as I can remember, we have spent summer afternoons and evenings there watching the fireworks. It has always been a place of tranquility and beauty overlooking our beautiful bay. Even when the palm trees are bending in the force of the gale force winds, it's still an area of outstanding beauty. From the bottom of my heart I ask you to please include this area, protect it and leave us to enjoy it for generations to come. Thank you Heather Simpson
Helen French	I am objecting to Greenhill Gardens not receiving full protection in the plan. It is a green oasis in Weymouth.
Helen Murphy	Please protect Greenhill Gardens by the national policy for Green Belts so that it is maintained by the local council and does not go further into disrepair. It is a beautiful area of Weymouth which we cannot afford to lose.
Helena Dawe	Weymouth would lose an important part of Weymouth if the Greenhill gardens got lost. Please don't sell it for "development"
Helene Frankham	I am objecting that the protection of green spaces does not include Greenhill Gardens and tennis courts/putting green. There are not many parks in Weymouth, and it is already in a conservation area, and therefore should be protected from future development by including this area with the other green spaces that are included in the plan for protection.
Hilary Rowland	I object to this proposal. What sane person wouldn't!? (Apart from, perhaps, someone who stood to gain financially). One only has to look at the beauty of what would be lost, consider all the benefits of this natural space to both the local community, and to those who visit Weymouth, to conclude that it needs to remain an area for people to enjoy and for local events to take place.
Ian Cox	This park is a community asset enjoyed by so many residents and visitors as a beautiful restful space, it is also an iconic feature of the town and therefore deserves protection.
Ian Oxland-Price	You have failed to list Greenhill Gardens as a green space that will be protected from development. Greenhill Gardens are a vital part of our beautiful seafront and deserve to be protected. They not only provide a beautiful garden, but also host a variety of events that are fun and family focused and very important to our community.
Izabelle Tait	How can you not support something that attracts so many tourists every year. we don't want building work on these beautiful gardens

J Dilks	<p>Greenhill Gardens has become one of the most important parts of Weymouth, not just for its history but also a lovely place for locals and our visitors to attend for a magical afternoon of entertainment. Tourists and locals visit the gardens continually to see the lovely flower arrangements and this happens both in the summer season as well as winter.</p> <p>It would be sacrilege to remove this part of Weymouth.</p>
J Jackson	<p>Policy no. W10 Pages 54-60 local green spaces I am OBJECTING Greenhill gardens on the sea front are not included They are used by the general public every day including events and are the only gardens easily accessible to all (including the disabled in easy reach of public transport) it should be protected</p>
Jackie Garland	<p>Do not ever consider building on Greenhill Gardens They're are not many beautiful open spaces such as this in Weymouth A great tourist attraction, great concerts in the summer Fab views beautifully tended gardens I personally don't want greedy builders , building unaffordable flats in its place . This green space is a great asset to Weymouth .</p>
Jacky Freedman	<p>Please protect Greenhill gardens from building development</p>
Jacqui Wall	<p>Policy W10 protecting local green space.</p> <p>Object that Greenhill Gardens has been excluded from this list</p>
Jaime kirwan	<p>Please do NOT use this beautiful garden to build yet more homes.</p>
James chiddy	<p>It's a lovely and quiet area and natural beauty it dose not need to have house on it just leave it as it is</p>
James Nicholson	<p>Greenhill Gardens should be protected from 'development'. It is a shared space for the community as a whole, and an attraction for visitors whose contribution to the local economy should be noted. Both residents and visitors would be deprived of this attractive space should it be developed (no doubt for 'executive/luxury) housing. I object to the development of Greenhill Gardens for housing.</p>
Jamie Wallace	<p>Ridiculous proposal. More land grabs where they're not wanted. This will cause untold amounts of traffic down a road not built for this level of use.</p> <p>It's a nice peaceful part of Weymouth where we walk our dogs twice daily and any restriction of access to us is unfair.</p>

	<p>Noise pollution is another factor as well as safety for animals and people.</p> <p>I do not want this to happen.</p>
Jane Guillem	<p>Grounds for Objection:</p> <p>Non-Compliance with National Planning Policy Framework (NPPF). The NPPF allows communities to designate areas of particular importance as LCS, affording them protection consistent with Green Belt policies. Greenhill Gardens established in 1872 a historic and recreational asset that aligns with the NPPF criteria for LGS designation. Its exclusion from the plan contradicts the NPPF's intent to protect spaces of local significance criteria for LGS designation. Its exclusion from the plan contradicts the NPPF's intent to protect spaces of local significance.</p> <p>Inconsistency with Sustainable Development Goals. One of the basic conditions requires that a neighbourhood plan contributes to sustainable development. Greenhill Gardens offers environmental benefits, supports biodiversity, and provides a communal space for social interaction and physical activity. Omitting it from protection undermines these sustainable development objectives.</p> <p>Potential Breach of Human Rights Obligations. The European Convention on Human Rights emphasises the right to respect for private and family life, which encompasses individuals' wellbeing derived from their environment. The potential future development of Greenhill Gardens, facilitated by its exclusion from the I-GS list, could adversely affect the community's quality of life, potentially breaching human rights obligations.</p> <p>To address these concerns, I propose the following modification to the Weymouth Neighbourhood Plan: Inclusion of Greenhill Gardens in the Local Green Spaces List: Amend the "Local Green Spaces" section to incorporate Greenhill Gardens as a designated LGS. This inclusion will align the plan with national policies, promote sustainable development, and uphold human rights commitments by ensuring the garden's protection for current and future generations.</p> <p>Conclusion: The exclusion of Greenhill Gardens from the Weymouth Neighbourhood Plan's LGS list is a significant oversight that may lead to non-compliance with national and international obligations. I urge the Dorset Council and the independent examiner to consider this objection and modify the plan accordingly to include Greenhill Gardens as a protected Local Green Space.</p>
Jane Holdaway	<p>I object to any loss of green spaces in Weymouth. It is so important to keep Weymouth beautiful and not to destroy green spaces like beautiful gardens which have been in situ for years. Please leave Greenhill Gardens alone. Such a pleasure to see on entry in to the town. We need to resurrect Weymouth not destroy it.</p>
jane Stevens	<p>I'm objecting to the plan, as the gardens are my favorite place to visit when I'm on holiday I spend a lot of time here. I feel any plans would ruin this beautiful much loved park. It needs protecting</p>

Janet Obrien	I strongly object to an plans to be built on green hill gardens
Janet Poole	I am objecting to Greenhill Gardens not being in the green spaces list. It is a beautiful calm space and is one of the few on a seafront. It is enjoyed by residents and visitors daily as well as providing a space for music etc It is a site of beauty and provides calm space for those seeking a quiet spot for contemplation. Any ideas to build on this spot would deprive residents and visitors essential green space and seating
Janice Appleby	Far too precious an asset to Weymouth to be built on
Jayne Hounsell	Greenhill Gardens is a beautiful & unique space & an asset to the town of Weymouth. It is used by locals & holiday visitors. The tennis courts & mini golf are always busy during the summer. The Gardens possess an old fashioned charm. They are immaculately maintained by a dedicated team & well attended events take place in the summer. Greenhill Gardens must be protected from development at all costs.
Jean Bishop	I object to this plan, as a resident I am appalled that you are taking away all our amenities why if you want more flats do you have to pick on somewhere like our beautiful gardens you are decimating our town.
Jean capp	I visit often for walk and relaxation . It is a gem of weymouth
Jeanette McPhail	Why has Greenhill Gardens been omitted from the Green Spaces list on pages 54-60. Please add this award-winning space, which is much loved by locals and visitors, to the list.
Jenni Louise Taylor	I have visited the Green hill gardens for many years with my now elderly mother, I would be devastated if these gardens were to be built on and think that green spaces are so important for the community, they also hold live band events in the summer and other such events and most definitely think this land should be protected from building on.
Jennie Jones	Greenhill Gardens are such a beautiful asset to our seafront. It is historical, and adds character to the town. It is a popular space for outdoor concerts and picnics. The short term injection of money by selling his land for development wouldn't compensate for the long term loss of such a treasure. It would also make residents feel that our town isn't special or treasured, and is open to being exploited and ruined for financial gain.
Jennifer	Green spaces we need then and green hill gardens are beautiful, as I'm only a visitor , and dont live in Weymouth, not sure how I can help , it's beautiful peaceful and they take great care of the gardens, not only loved by the locals but by the visitors
Jennifer Harrison	I am very concerned that Greenhill Gardens are not on the list of Local Green Spaces in Weymouth and therefore is not protected by the National Policy for Green Belts. It is a much needed space, well used and appreciated by locals and visitors. The gardens are well maintained and a credit to Weymouth.
Jennifer herridge	I strongly object to the fact that Greenhill Gardens has been excluded from the list of important protected areas of open space. This is an important area for the amenity of residents and visitors alike, as well as forming an important buffer between the beach at

	Greenhill and nearby built development, as well as assisting in the overall 'greening' of the urban landscape. It is an important local resource for leisure, recreation and wildlife which should be afforded maximum protection.
Jessica collins	How can you not include Weymouth green hill gardens in the green spaces I visit there everyday when I'm on holiday there it is such a beautiful place and is a lovely place to sit and watch the sea and be surrounding by such lovely flowers and a green space the public and tourists need this space to be included in the neighbourhood plan as it is essential for mental health and wellbeing of going on walks and visiting a natural place next to the see which is calming and beautiful on a sunny day jus to sit and rest and relax and
Jessica Towers	I object
Jill Bramley	I object to the omission of Greenhill Gardens from the list of protected green spaces in the W10 policy section
Joan Greaves	I wish to object that the neighbourhood plan Policy W10 - Local Green Space -Pages 54 to 60 has omitted Greenhill Gardens. Greenhill gardens are a treasure for Weymouth a beautiful space and gardens that should be protected by the National Policy for Green Belts. Please add them to the Neighbourhood Plan.
John Adams	Greenhill gardens should be a protected space from building
John Malin	I object to Weymouth Neighbourhood Plan Policy W10: Local Green Space which is found on pages 54 to 60. In the list of 49 local green spaces in Weymouth, GREENHILL GARDENS IS MISSING. GREENHILL GARDENS should be protected by the national policy for Green Belts and be removed from the local planning policy.
John Richards	I object to Greenhill Gardens being considered as suitable for development. It is a valuable community space for local people and holiday makers. I use the beautiful gardens on a regular basis, and the events put on are well attended. The cafe on the site is well run and a valuable asset to all. The gardens should be included on the list of protected greenbelt sites.
Joshua Cowan	Greenhill Gardens in Weymouth should be designated as a green space in the local plan for several key reasons: 1. Environmental and Biodiversity Benefits – The gardens provide an important green corridor that supports local wildlife, helps with air quality, and contributes to climate resilience. Protecting this space ensures that biodiversity in the area is maintained. 2. Recreational and Community Value – Greenhill Gardens is a cherished public space where residents and visitors enjoy walking, relaxing, and socializing. It promotes health and well-being by offering a tranquil setting for outdoor activities. 3. Historical and Cultural Significance – The gardens have historical importance and contribute to the character of Weymouth's seafront. Preserving them maintains the town's heritage and appeal. 4. Tourism and Economic Benefits – As a scenic attraction, Greenhill Gardens enhances Weymouth's tourism offering, supporting local businesses and the economy. Losing green space could diminish the town's appeal. 5. Protection from Development – Without designation, the area could be at risk of future development, which would reduce public

	<p>access to green space and harm the local environment. Designating it ensures long-term protection.</p> <p>By including Greenhill Gardens in the local plan as a designated green space, the council would be safeguarding an invaluable asset for current and future generations.</p>
Jude Liddle	<p>Greenhill Gardens must be protected as valuable green space and never be built upon. How on earth it was excluded beggars belief!!</p> <p>It is a valuable space enjoyed by locals and holiday makers</p>
Judith Layton	<p>I think Greenhill Gardens should be put on the list so it's not built on. Its a lovely place and can be visited as part of the Weymouth Beach experience especially by those that like to sit and appreciate both the beach and the beautiful gardens.</p>
Julia Sinclair	<p>The gardens are beautiful peaceful and should be protected for our health and appreciation</p>
Julian	<p>I have been visiting these Gardens all my Life 66 years and Cycle there now at 66 years of age for my Health and Well being If they want to Build Houses there is plenty Of Land around Cerne Abbass were a new Town can be built new Towns are the way Forward plenty of Land on Dartmoor</p>
Julie Bland	<p>Greenhill Garden is a wonderful meeting place, tranquil garden of reflection (when required) a centre of entertainment periodically and just a Beautiful spot for photography of our lovely Bay, beautifully kept gardens and escape the crowds mid-Summer. Please keep it exactly as it is, it's perfect!</p>
Julie Hicks	<p>I think that Greenhill Gardens should be top of the list for outdoor open spaces. These gardens are essential for the residents of flats in this area who do not have gardens of their own.</p> <p>Also Greenhill gardens are a great attraction for the holiday makers who all enthuse on how lovely it is to sit in the gardens and have a sea view - how many seaside towns have that attraction?</p> <p>Sunday afternoon musical concerts are well attended not only by locals but from many surrounding locations in the summer and are greatly enjoyed by disabled adults and young children.</p> <p>I hope I have put my points over clearly and definitely these gardens need to be too of the list of local Green Spaces in Weymouth.</p>
Julie Nash	<p>object to the plan as Greenhill Gardens needs to be protected as a green space free from building and development. Its space is a place used by many locals and tourists and is part if Weymouths' history that needs preserving.</p>

Julie Ormerod	<p>We definitely do not want any of greenhill gardens sold off for property development .</p> <p>Leave it as it is , it is a lovely area to sit and walk and spend time with friends and family and play golf in the summer .</p> <p>There is a lack of affordable housing in Weymouth and these would definitely not be affordable ,</p>
Juliet Hawkes	<p>I am supportive of the document and its aims and objectives, but am horrified that it has ommitted Greenhill Gardens from the list of gardens, parks and green spaces which should be protected.</p> <p>I understand that this was a genuine mistake, but am genuinely surprised that rather than hold its hands up and include this park - which it must be aware of as it features in many pictures of the attractions of Weymouth, and which the Council itself owns and maintains to a very high standard, presumably at considerable cost to the public purse - it is urging the Friends to lobby for its inclusion in the plan.</p> <p>This seems perfidious in the extreme, and I think Weymouth Town Council have not behaved well over this issue, and should seek to rectify the position immediately.</p>
Karen James	<p>Green spaces are important for nature, mental health, places to stop and chat and enjoy.</p> <p>Natural beauty is so important.</p> <p>Greenhill gardens with its flowers are do important for the save the bees campaign, RSPB, butterflies etc etc etc.</p>
Kate Nicholson	<p>Please protect Greenhill Gardens - they are missing from the list of 49 protected green spaces in Weymouth, and are a very important part of the seafront that tourists love when they visit. They need to be protected in order to prevent building developments ruining the esplanade. Let's preserve this wonderful town so that future generations can enjoy it as much as we locals and the tourists do.</p>
Kelly Bissett (1)	<p>I understand that Greenhill gardens has not been included as a protected green site.</p> <p>This area should be protected and not built on in future. The gardens are used by the local community.</p>
Ken Parratt	<p>Neighbourhood Plan Policy W10: Local Green Space pages 54-60.</p> <p>I/we object to the exclusion of Greenhill Gardens from the Weymouth Neighbourhood Plan's LGS list is a significant oversight that may lead to a non-compliance with national and international obligations.</p> <p>I/we urge the Dorset Council and the independent examiner to consider this objection and modify the plan accordingly to include Greenhill Gardens as a protected Local Green Space.</p>
Kenneth Francis	<p>W10: Local Green Space.</p> <p>Please INCLUDE Greenhill Gardens in the protected spaces.</p>
Kevin Mackenzie	<p>Greenhill Gardens has to be protected from any development.</p> <p>It is a beautiful environment, a tourist attraction and a place of historical importance and significance.</p>

Kevin Stenlake	I've lived in Weymouth since 1976. Greenhill Gardens needs ongoing protected status. It is of historical significance - it's part of our seafront - it is loved by locals and visitors and preserves what it means to come to Weymouth. Whether you are sat in it - walking around - listening to music - having something to eat - it is a brilliant facility. Please do not destroy what we have.
Kezia kerr	Scrap the entire proposal Greenhill Gardens are a sacred part of Weymouth
Kim Cooper	The Gardens should be kept and treasured. They are an important part of the lovely seaside town of Weymouth. Having walked through them many times they are beautiful and calming. I wholeheartedly support keeping the gardens firmly the people who live there and the many thousands of visitors.
Kristine Hallett	I object strongly against any development taking place on land known as Greenhill Gardens, Weymouth. It has been an oasis of history, beauty and calm ever since the gardens were constructed and the only green space and place for quiet reflection on the esplanade, enjoyed by all residents and thousands of visitors each year. The Clock especially, and the planting should remain for future generations to enjoy - its the beating heart of Weymouth - the most recognised symbol after the Jubilee Clock - PLEASE PROTECT IT.
Laura Keily	Greenhill should be protected as a beauty spot for local people and tourism. Its attractive and should not be built on
Leila Marchant	<p>Upon reviewing the Weymouth Neighbourhood Plan document, I have identified a significant concern regarding the exclusion of Greenhill Gardens from the designated Local Green Spaces (LGS) list. This omission raises questions about the plan's adherence to the basic conditions outlined in national planning policies.</p> <p>Grounds for Objection:</p> <p>Non-Compliance with National Planning Policy Framework (NPPF). The NPPF allows communities to designate areas of particular importance as LGS, affording them protection consistent with Green Belt policies. Greenhill Gardens, established in 1872, is a historic and recreational asset that aligns with the NPPF criteria for LGS designation. Its exclusion from the plan contradicts the NPPF's intent to protect spaces of local significance.</p> <p>Inconsistency with Sustainable Development Goals. One of the basic conditions requires that a neighbourhood plan contributes to sustainable development. Greenhill Gardens offers environmental benefits, supports biodiversity, and provides a communal space for social interaction and physical activity. Omitting it from protection undermines these sustainable development objectives.</p> <p>Potential Breach of Human Rights Obligations. The European Convention on Human Rights emphasises the right to respect for private and family life, which encompasses individuals' well-being derived from their environment. The potential future development of Greenhill Gardens, facilitated by its exclusion from the LGS list, could adversely affect the community's quality of life, potentially breaching human rights obligations.</p>

	<p>To address these concerns, I propose the following modification to the Weymouth Neighbourhood Plan: Inclusion of Greenhill Gardens in the Local Green Spaces List: Amend the "Local Green Spaces" section to incorporate Greenhill Gardens as a designated LGS. This inclusion will align the plan with national policies, promote sustainable development, and uphold human rights commitments by ensuring the garden's protection for current and future generations.</p> <p>Conclusion: The exclusion of Greenhill Gardens from the Weymouth Neighbourhood Plan's LGS list is a significant oversight that may lead to non-compliance with national and international obligations. I urge the Dorset Council and the independent examiner to consider this objection and modify the plan accordingly to include Greenhill Gardens as a protected Local Green Space.</p>
Lesley Bainbridge	Greenhill Gardens is a historic and iconic part of Weymouth seafront and as such should have a preservation order so it is never built on
Linda Davidson	I object to the Greenhill gardens and surrounding amenities being exempt from planning permission. These gardens are beautiful and well used, lots of people enjoy the beach huts etc and it is highly possible that any flats built will be second homes, buy to let and far too expensive for us local people to purchase.
Lindsey Brass	This is a valued and beautiful community space
Lindsey Raven	I believe the site at Greenhill Gardens should never be built on. It should be preserved as part of our heritage and the wonderful amenities it offers locals and holiday makers should be given the highest level of protection.
Lisa Garner	These gardens have been here for the public and holidaymakers to enjoy for years and the sea front should stay for everyone to enjoy.
Lisa White	<p>Greenhill Gardens is a haven of peace on a Summers day. So few green spaces left to enjoy without the noise of funfairs etc. A place that is accessible to those with mobility issues.</p> <p>A lovely place to while away a few hours away from the hustle and bustle of the town centre.</p> <p>Weymouth is fast deteriorating as a holiday resort. The beach will always bring in visitors, but the elderly also need a place to visit.</p>
Lorraine Mercer	<p>I am writing to ask why Greenhill Gardens have been left off the Green Spaces list on Page 54-60? Please can these gardens, which is an award-winning space, much loved by visitors and locals alike, be added to the list?</p> <p>Many thanks</p>
Louise Swinton	<p>In the neighbour plan, Greenhill gardens is listed as an open space - p18 2.21. Surely in this day and age, importance must be given to this area of beauty and tranquility from the point of view of mental health well-being. So many residents and visitors alike benefit from being in this wonderful area. I can't imagine there is anyone who would want to see the area used for anything else and for this reason the gardens should be added to the protected green space list.</p> <p>I object to them being left out.</p>

Louise Turnbull	Greenhill Gardens need to be protected as a public leisure green space and not put at risk of potential development that goes against it's current use.
Lynne Romain	I object to the plan. Greenhill Gardens are an important part of both the community and visitors. It is a beautiful, tranquil garden and an important addition to the Weymouth seafront. Places like this are vital to the whole atmosphere of Weymouth and it's attraction.
M Wilson-Browne	I object to the neighbourhood plan in regards to Greenhill gardens. It needs to be protected alot of time and effort has gone into making it a community place and we'd be a waste and a shame .
Malcolm Cann	Greenhill gardens needs to be part of the national green space scheme - So little grass and planted areas around - please save gardens!
Marc Westmancott	<p>Weymouth Greenhill Gardens should be part of the neighbourhood plans.</p> <p>These gardens are well used and very beautiful.</p> <p>They should not be left out and neglected only to be sold off to a developer in the future!</p> <p>Weymouth does not need more expensive waterside apartments, there's already plenty which are sat empty because they are far too expensive!</p>
Margaret Hutchins	Greenhill Gardens is a place of special interest on the seafront. It has a rare plant clock. It would be a shame if this area was used for building and no longer accessible to the public for relaxation and leisure purposes, not everyone wants to sit on the beach.
Maria foster	Greenhill gardens should stay as it is not built on
Maria Oxland-Price	I want to make sure that Greenhill Gardens are protected from being used as this is a vital green community space.
Marie Keane	<p>I understand that Greenhill Gardens is not included in the green area safe from building on. I cannot stress my dismay at this enough. Greenhill Gardens is Weymouth's jewel in the crown. It would be sacrilege if these beautiful gardens are not kept for everyone 's pleasure. I have lived here for 54 years and enjoyed the pleasure of the gardens for all that time. My husbands ashes are scattered in the gravel area. We sat in those gardens and I have all my shared memories of our time together there.</p> <p>Sincerely Marie Keane</p>
Marie Nayaka	<p>I object to Weymouth Neighbourhood Plan is Policy W10: Local Green Space which is found on pages 54 to 60.</p> <p>In the list of 49 local green spaces in Weymouth, GREENHILL GARDENS IS MISSING. It should be protected by the national policy for Green Belts and be removed from the local planning policy.</p>

Marion	Greenhill gardens must be included in the plan
Marion Frances	I object to Greenhill Gardens not being protected as a green space.
Mark Farwell	Greenhill Gardens should be maintained as a place of beauty for Weymouth residents and visitors alike. It is one of the treasures of the local area. To change it to residential properties will degrade the appeal of the seafront.
Mark Williams	Greenhill Gardens is a loved and well used seafront facility, in particular a favourite of elderly people. It should be protected
Mark Wright	POLICY W10 LOCAL GREEN SPACE particularly Greenhill Gardens It is obscene that this area is being exposed to the possible risk of residential development , it was gifted for the enjoyment of all residence of Weymouth . It is one of the very few remaining jewels of the local area . Overdevelopment is rife in Weymouth , don't take more of the character of this Georgian town away .
Martin Davis	W10 - green spaces. The author appears to have overlooked Greenhill Gardens on Weymouth seafront. A long established jewel in the Weymouth seafront character. If it's included elsewhere, forgive me but a word search failed to find any mention of Greenhill gardens. Thanks.
Martin Ryan	This is a gem that is accessible to all no matter disabilities.
Mary Harrington	The protected green spaces on the plan does not include Greenhill Gardens on the esplanade. This is an award winning green space area which is very popular and is both a tourist and local asset to Weymouth. It is part of Weymouth's character and history and is used by all generations, from parents with babies to old people. It is essential that Greenhill Gardens is protected for future generations.
Mary Hawkins	I would like Green Hill Gardens added to the list. I spend many hours there in the summer with family and friend either just walking or sitting and enjoying the view or attend the music events. On nice days in the winter when wrapped up warm it is always a place one can visit and have a chat with other users of the gardens. They would be a great loss to Weymouth and the many visitors we have as everyone enjoys them and the gardens are kept so nice. I would like them protected so every one in the future can benefit from them. Please, Please add them to the list so they are protected for the future.
Matthew Lambley	Greenhill Gardens needs to be included on Policy W10: Local Green Space which is found on pages 54 to 60.
McNair	I notice that Greenhill Gardebs have veen missed off the green spaces list. As this is an important attraction to Weymouth, I consider that it should be there, and request that it is added.
Mel Arnold	Do not include the lovely Greenhill gardens in your building plans why spoil a lovely attraction

Melanie Miller	Object to Greenhill gardens not being protected
Michael Gale	Why is Greenhill Gardens not being designated as a Green Space . Hasn't it been awarded a Green Flag for years ! It was also left to the council as a specific gardens and recreation area
Michal Kulyk	I am Objecting to the plan , this is a very valuable Weymouth community space and needs to be protected from building developments
Mike Parker	re neighbourhood plan policy w10:local green space, found on pages 54 to 60 My wife and I are strongly against any suggestion that Greenhill Gardens should not be protected as a green space. These gardens should remain for the people of Weymouth to enjoy.
Moir Lawton	I am objecting to any plans to build on this site, Greenhill gardens are one of our tourist attractions, many people come to visit and remember their childhood holidays, this includes my cousins from Glasgow when they visit, we always go there and have a walk around the gardens, a game of putting and an ice cream from the cafe as we have for over 45 years, remembering the times we done this with our parents, it's also a great place for locals and holiday makers alike meet for the live bands playing on the weekends
Mrs Barbara Dubben	Both my husband Graham and myself have noted that the Greenhill Gardens, including the areas in very close proximity have been omitted from the plan. We are led to believe that this was in error and therefore would like this rectified
Mrs Kim Rees (1)	Greenhill Gardens has been supported by so many, and it is a beautiful place to visit. The friends of the gardens have worked tirelessly in maintaining the gardens and making it a pleasure to visit. Not to mention the amount of fund raising they do for local charities We need to keep these gardens, it has been part of Weymouth for so long. It would totally devastating should these gardens no longer exist. So I am asking you to please, please add this to the list "LOCAL GREEN SPACE" Thank you
Mrs Lesley McCarthy	Re Policy W10: Local Green Space - I am objecting that in the list of 49 local green spaces in Weymouth, that Greenhill Gardens is missing. This is a much needed and valued local green space. It is essential that Greenhill Gardens also be included in that list of local green spaces, thus protected by the national green belt and protected from any development for housing now and in the future.
Mrs Sally Kropacek	Greenhill Gardens needs to be protected from development as does the mini golf, tennis courts and bowling green. It is ludicrous that these important landmarks and vital open spaces are not protected. Please ensure they are. Thank you

Mrs Sarah Firmin	<p>Local Green Spaces page54-60</p> <p>Please add Greenhill Gardens to the list as they are a valuable asset to our town as a place for rest and relaxation. Also the open air concerts in the summer are a real bonus getting people together to appreciate the talent we have locally.</p>
Mrs Susan J Langford	<p>Greenhill Gardens must be protected from any detrimental development. It us a treasured area, enjoyed by residents and visitors. Its future must not be in question.</p>
Mrs Valerie Leare	<p>I completely and utterly object to any proposal of removing Greenhill Gardens for the purpose of building houses on said land. I am now coming up to 82 years old and those gardens are for the people of Weymouth. I object, I object. I object.</p>
Mrs Wendy Hill	<p>My husband and I agree with comment sent to you via Friends of Greenhill Gardens. Please accept this as our feedback.</p> <p>NB we did not have the plan delivered to our property we found out about it when asked what our opinion was regarding the Plan. Since then I have spoken to several people and hardly any body has receive a copy. It seams delivery of the plan was very ad-hoc and I cannot understand how you expect to get peoples reaction to the Plan if they are not even aware of it</p> <p>Weymouth Neighbourhood Plan identifies areas for building new houses. It also identifies Local Green Spaces and areas that need to be given special protection.</p> <p>In the list of 49 local green spaces in Weymouth, GREENHILL GARDENS IS MISSING. This means that the gardens will not be protected by the National Policy for Green Belts and can be removed from the local planning policies protecting it from development.</p> <p>Why does this matter? If the Council decide that it costs too much, it makes it easier to stop the repairs and maintenance. 18 years ago, this was the case, and the Council tried to lease part of the gardens to developers. With significant costs expected soon to resolve land slip issues, we need the protection of being a recognised Local Green Space.</p> <p>Why Now? This Neighbourhood Plan, once made, will form part of the statutory development plan for Weymouth through to 2038. This is the last chance to make changes before the final version is adopted.</p>
Ms Elaine Walker	<p>I note that Greenhill Gardens has not been included in the Local Green Spaces list.</p> <p>I understand that its exclusion would mean that the Gardens would not be protected by the National Policy for Green Belts, and the protection that that policy provides, particularly in respect of development.</p> <p>Greenhill Gardens provides a valuable social and recreational space for residents and visitors alike and I consider that it should be included in the Local Green Spaces list.</p>
Ms Gina M Lampard	<p>I see Greenhill Gardens are not included in the plan. Is this an oversight or is there a particular reason for this?</p>

Ms Tussi Dunstall	I am wondering why Greenhill Gardens is not included? Our coastline, walks etc are such an important part of our local area for tourists and locals alike. Greenhill especially offers so much community so wondered why it wasn't included?
Ms V L Jadali-Sabet	Just leave Greenhill Gardens and Tennis Courts alone! Blimey the residents of Weymouth have an awful town centre with all the closures, recently even lost our cinema! There is just estate agents and charity shops left. The council tax is astronomical as are all bills currently. We must have some nice spaces for our mental health's sake!
Neil Cogdell	I am objecting to the exclusion of Greenhill Gardens from the plan This will open the highly beneficial area to greedy developers It should be protected as it's a great feature of the seafront and popular among visitors and residents alike
Neil Nayaka	I object to Weymouth Neighbourhood Plan Policy W10: Local Green Space which is found on pages 54 to 60. In the list of 49 local green spaces in Weymouth, GREENHILL GARDENS IS MISSING. GREENHILL GARDENS should be protected by the national policy for Green Belts and be removed from the local planning policy.
Nichola Jarvis	Please don't build on this beautiful place, it's an important local amenity and one I visit often whilst in the town.
Nick Harrison	Please keep this lovely area free and protected from any building. I object to any significant changes that spoil this beautiful little area.
Nick Kropacek	The new multi documented plan appears not to include the Greenhill neighbourhood amongst the protected areas of our town. I am objecting to the plan as it stands because this is an egregious omission that can not have been accidental. As an intentional omission immediately issues of trust and openness are flagged given previous attempts to build on the tennis court and adjoining spaces. This blatant omission questions our local government's avowed commitment to "sustainability" and green spaces to support biodiversity and a vibrant local cultural environment. I would be grateful if you were to amend this omission or at least explain it and let us know what plans or applications have been made with regard to the future of the Greenhill area and specifically to the Gardens and adjoining recreational spaces. I would like to suggest that since plans are being considered for Weymouth, investment should be made to upgrade and modernise the tennis courts rather than allowing them to decay in order to justify an unwelcome development. This is a plan we would like to see especially when we see money being wasted all around us.
Nigel Thompson	Policy W10: Local Green Space IN SUPPORT of Greenhill Gardens: This part of the proposal appears to have overlooked Greenhill Gardens which includes recreational space tennis courts and bowls green (and clubhouse). This area must be maintained in its current state/use for the benefit not only of the local residents but also for the numerous visitors which include not only day trippers but also longer term holiday makers, keen amateur tennis, pickleball and bowls players and putting green aficionados, as well as those who just enjoy a leisurely stroll through tranquil beautifully maintained gardens. The number of people benefitting from this space cannot be overstated. And must over the

	<p>course of a year account for tens of thousands of people of all ages benefitting from this area which caters for a wide range of the populus.</p> <p>I can speak personally for the bowls club which has been on the site for decades and its clubhouse was rebuilt in 2000. Many local people play at the club (and attend functions in the clubhouse) and (for example we will see 20 visiting clubs make use of the ground during 2025) these visitors will amount to approximately 480 people visiting Weymouth and contributing not only to the club's coffers but also to local hospitality (many will stop overnight in local accommodation) and spend money at other local amenities while they are here.</p> <p>Thousands use the Greenhill Gardens itself, a beautiful open space that is lovingly maintained by an enthusiastic group of Friends. Hundreds are attracted here on Summer Sunday afternoons for concerts held in the bandstand. Year round it is a haven of peace and tranquility. The Tennis courts which also double as pickleball courts encourage outdoor activity, as does the putting green.</p>
Parker	Greenhill gardens should be protected from development
Pat Loizou	<p>The relevant section of the Neighbourhood Plan is Policy W10: Local Green Space which is found on pages 54 to 60.</p> <p>I think Greenhill Gardens should be included for discussion in the full council meeting on 26th February and should be included and protected in the list of the 49 local green spaces in Weymouth, ie protected by the national policy for Green Belts and removed from the local planning policies to protect it from development.</p>
Patricia Ward-Nodwell	Greenhill Gardens must be included in the Weymouth Neighbourhood Plan. It is essential green/amenity space for local people and visitors.
Paul Daniell	i object to greenhill gardens not being a protected greenn space and therefore the neighbourhood plan can not be accepted.
Paula Cannon-Sears	Greenhill gardens
Paula Tunbridge	<p>Policy W10 Local Green Space, pages 54-60</p> <p>Objecting to Greenhill Gardens not being included in Table A Weymouth Neighbourhood Plan Local Green Spaces</p> <p>Greenhill Gardens are an important part of Weymouth's history and conservation area. They contain one of the few remaining Floral Clocks driven by a mechanical clock movement as well as the Bennett Shelter marking the end of the First World War. The plants and flowers including the charity flower bed are publicly accessible and admired by both local residents and holidaymakers. The summer concerts are also extremely popular with locals and visitors.</p> <p>Finally they are situated close to residential properties.</p>

Pauline Metcalf	Please give Greenhill Gardens protected status. It is a real asset to the town. I stay in weymouth every week and greenhill gardens are a lovely vital place to relax.
Pete Fell	I'm supporting you. No need to build there it's a beautiful open space where you can relax
Peter Green	In the local green spaces in Weymouth, why is GREENHILL GARDENS EXCLUDED. This means that the gardens are not protected by the national policy for Green Belts and can be removed from the local planning policies protecting it from development. It is an important visual attraction. If building were to take place, traffic would increase in an area where access through is already not great, therefore going against ecological and sustainability considerations.
Peter Romain	<p>I would like to insist that Greenhill Gardens is added to the list of 49 green spaces in Schedule 1 of the document "Weymouth Neighbourhood Plan 2021 - 2038".</p> <p>The gardens are often included in tourist publicity for Weymouth as one of the nicest places to visit. Losing Greenhill Gardens would reduce the draw factor for visitors, which coastal towns like Weymouth can ill afford.</p> <p>The gardens are well used by locals and visitors as a peaceful and pleasant place to relax and enjoy the sea views. The cafe in the gardens provides welcome refreshments in the summer months as well as warming drinks on sunny days in cooler weather. Regular free concerts held in the gardens are well attended and enjoyed by both Weymouth residents and visitors alike.</p> <p>For Greenhill Gardens, as an important green space, to be excluded from the plan would be unthinkable.</p> <p>Greenhill Gardens is in the conservation area shown on the Dorset Council website: https://gi.dorsetcouncil.gov.uk/dorsetexplorer/#map=14.91/50.61336/-2.44818/0&layers=127/100/100/&basemap=1/100/100 For this reason, any change of use of the space should automatically be rejected by the planning authorities. In Stanton Court, which is behind the park, permission to change from timber to uPVC windows was refused solely on the basis that they may change the outlook of the property. If development is allowed on Greenhill Gardens, then this would have an enormously detrimental effect on Weymouth as the views along the promenade would be ruined.</p>
Philip Jordan	<p>I write concerning the Weymouth Neighbourhood Plan 2021 to 2038 proposals to build housing at GREENHILL GARDENS, thus surely wreck the very core of this vital part of Weymouth's character & attraction to both locals & visitors e.g.</p> <p>it's part of what still attracts me today, just as it did 30 years ago: when our twin children were little more than toddlers, & Greenhill Gardens was such a wonderful place to visit with them - having not only such great views, but also pleasant places to sit &/or play + of</p>

	course the monument celebrating the aeroplane (that the 2nd World War's Spitfire was based on) which turned here, to return to it's Isle of Wight base
Philippa Cousens	Greenhill gardens is a beautiful well looked after and well used area.
Polina Yeremeyeva	I believe that Greenhill Gardens must be added to the list of Local Green Spaces for several reasons. It is a vital area in our community which is used for socialising - therefore bringing together both Weymouth citizens and tourists. It's a brilliant peaceful tourist attraction which helps local businesses thrive, especially in the warmer months. People of all ages, families with children and the elderly in particular, are always visiting the gardens all year round. The gardens are also apart of Weymouth's heritage; soldiers in the Second World War marched down the gardens' steps to protect our town and our country. We cannot be erasing important sites from our town! Moreover, it makes absolutely no sense to build new houses in the gardens due to the constant movement of the land which would cause more unnecessary dangers and hazards.
Poppy Townsend	Please include Greenhill Gardens in the list of local green spaces. It is a lovely respite from the busy seafront during the height of the summer, and a lovely place to sit and enjoy some winter sunshine. It is great for individuals who are unable to access the beach via the steps. But still want a peaceful way to enjoy the outdoors.
Rachel Abel	Green hill gardens needs protection from development. It's a lovely place for families to walk and relax in and enjoy the views of the sea and look at the beautiful gardens. Developing houses on it would destroy Weymouth's attraction
Rachel James	I believe Greenhill gardens should be included in the Green areas to be protected. They have historic value, are a meeting place for many local people during the summer when the main beach is so busy with tourists and they offer many activities for locals and tourists such as the bowls, tennis and cafe
Rebecca Hignett	I am objecting to Green hill Gardens being omitted as a protected space. The plant clock is one of the few left in the country, the gardens are a beautiful colourful space along with the bandstand they are much loved and admired as well as well used. They absolutely must be protected
Richard Chilman	Both of my parents' ashes are scattered in Greenhill Gardens. I feel very strongly that it should remain as a beautiful garden and view point over Weymouth bay. It was used by my parents regularly, as it is now by numerous other elderly people and I believe it is imperative to keep it that way. We have a bench there to commemorate my parents and regularly travel down from the midlands to pay our respects.
Richard Gilbert	As a regular visitor to Greenhill Gardens over twenty years, it is clear that the garden plays a vital role in the local community, providing a beautiful space for walking, socialising and relaxing. It is a vital asset for the community and must be protected.
Robert Dunford	I am submitting an objection to WNP 2021-2038, with respect to Greenhill Gardens NOT being included in the list of Local Green Spaces and therefore, potentially, under threat of development. Quoting NPPF, paragraph 107, The Local Green Space designation should only be used where the green space is:

<p>Robert Dunford (continued)</p>	<p>a) in reasonably close proximity to the community it serves; b) demonstrably special to a local community and holds a particular local significance, for example because of its beauty, historic significance, recreational value (including as a playing field), tranquillity or richness of its wildlife; and c) local in character and is not an extensive tract of land.</p> <p>Greenhill Gardens fulfils ALL three of the above points in the Governments NPPF. I submit that Greenhill Gardens be included in the list of Local Green Spaces in the WPN document.</p> <p>In addition: The NPPF allows communities to designate areas of particular importance as LGS, affording them protection consistent with Green Belt policies.</p> <p>Greenhill Gardens, established in 1872, is a historic and recreational asset that aligns with the NPPF criteria for LGS designation. Its exclusion from the plan contradicts the NPPF's intent to protect spaces of local significance.</p> <p>Inconsistency with Sustainable Development Goals. One of the basic conditions requires that a neighbourhood plan contributes to sustainable development:</p> <p>Greenhill Gardens offers environmental benefits, supports biodiversity, and provides a communal space for social interaction and physical activity. Omitting it from protection undermines these sustainable development objectives.</p> <p>Potential Breach of Human Rights Obligations. The European Convention on Human Rights emphasises the right to respect for private and family life, which encompasses individuals' wellbeing derived from their environment. The potential future development of Greenhill Gardens, facilitated by its exclusion from the LGS list, could adversely affect the community's quality of life, potentially breaching human rights obligations.</p> <p>I propose the following modification to the Weymouth Neighbourhood Plan: Inclusion of Greenhill Gardens in the Local Green Spaces List: Amend the "Local Green Spaces" section to incorporate Greenhill Gardens as a designated LGS. This inclusion will align the plan with national policies, promote sustainable development, and uphold human rights commitments by ensuring the garden's protection for current and future generations.</p> <p>My Conclusion: The exclusion of Greenhill Gardens from the Weymouth Neighbourhood Plan's LGS list is a significant oversight that may lead to non-</p>
---------------------------------------	--

	compliance with national and international obligations. I urge the Dorset Council and the independent examiner to consider this objection and modify the plan accordingly to include Greenhill Gardens as a protected Local Green Space.
Robert Luton	Greenhill Gardens are a vital asset for the community and visitors who bring much needed revenue to the town. They should be listed as Green Belt
Roger Jankes	It is absurd to build industrial units in the middle apartments on the beach front. Greenhill Gardens is the only green area on the Weymouth promenade, notwithstanding the history of the gardens.
Rose-Ann Swan	Greenhill Gardens forms an important amenity for all the people of Weymouth. I frequently walk around the park with my dog. It's so lovely and very peaceful. Weymouth has increasingly less to recommend it in way of beautiful open spaces, due to neglect! There is so little greenery: the fact that this space is largely run by volunteers is a real testament to its importance and beauty. A real rose in an otherwise urban space! We, as a town, hardly compete with the like of Eastbourne in the way of seaside garden space, but at least Greenhill Gardens gives it a shot! A beautiful garden space where many simply do not have gardens, only a courtyard, or nothing! Do not swap this lovely amenity for yet more ugly building which gives nothing to the people of Weymouth.
Russ Poole	Objecting. Objections shouldn't need to be justified to protest on this outrageous idea. This is the only peaceful green garden space that overlooks the sea in the whole of the Weymouth Bay area. It is kept beautiful, respected by all, it never gets untidy with litter or louts, a real haven. A centre for garden music, remembrance area of loved ones, honouring royalty deaths and other important occasions. Don't let this happen, this will be a real loss and regretted for many decades.
Ruth Dempsey	I believe Greenhill gardens should be included in the neighbourhood plan to protect green spaces in Weymouth. It is a beautiful space on the seafront and attracts visitors and local residents alike. It must not be in danger of falling into the hands of developers who seek to take prime land for huge profit making enterprises . Greenhill Gardens must remain as it is and given protection for years to come .
S Hart	Objection 1 Greenhill Gardens should be protected Objection 2 Its not clear what road access is proposed to Wyke Oliver Farm housing development
Sally Kropacek	It is unbelievable that Greenhill Gardens, the pitch and putt, the tennis courts and the bowling green are not protected. These popular and important communal areas must be protected and maintained. Please ensure that the people of Weymouth, visitors and FOGG will be able to use these wonderful facilities without the danger of construction of buildings that are not needed or wanted. We do not want our beautiful promenade and gardens etc to be turned into some Spanish high rise resort blocking the view and destroying a much loved and much used communal area. Protect it always please.
Sally Parkes	The Greenhill Gardens does not appear to be included in the list of land protected from development of housing or anything else. I would not want to loose this amazing facility. So please add Greenhill Gardens to your list of protected land.
Samantha Squire	In reference to Greenhill Gardens, why would you allow this area to be considered for building ? It is a beautiful part of Weymouth. I don't believe there is any need for this area to be built upon when there are currently many building developments going on in Weymouth.

Sandra Cox	<p>I object to building on Green hill gardens</p> <p>Leave these sights alone - they have built so many memories for so many people</p>
Sarah Barker	<p>Why have the Greenhill Gardens been omitted from the Green Spaces list on pages 54 - 60? A wonderful space that is much enjoyed by locals and visitors alike at any time of year. It is award winning as well, so please put it on the Green Spaces list to ensure it stays just that and continues to be used, admired and cherished by all.</p>
Sarah Churchill	<p>Beautiful space</p> <p>Enjoy sitting and have looking at beautiful view</p>
Sarah priestly	<p>I object to Greenhill Gardens not being included in the protected green spaces within the plan. This is a vital community park that is apart of the beachfront aesthetics. If not protected it has the risk of being overdeveloped and impacting the local community and tourist industry</p>
Sarah Pullen	<p>I am objecting to Greenhill Gardens not being protected in the neighbourhood plan.</p> <p>It is the only open space gardens along the esplanade in Weymouth, where people can go and enjoy beautiful, peaceful gardens and beautiful sea views. The gardens are accessible to all. There are so many prime spots along the seafront that have been developed, and are holiday lets or second homes. The locals and tourists should be able to enjoy this area too.</p> <p>These gardens must be protected for the green space they provide to the community, and should not risk their loss for future development of the land to house rich people. It's about community and community space in the town, and must be protected.</p>
Shabaz Ali	<p>I wish to object to the changes to the Greenhill Gardenplan.</p> <p>I feel that it should be protected by the policy for the Greenhill belts</p> <p>The gardens are an integral part of the Weymouth heritage given to Weymouth. And should continue in this way.</p>
Shane Connell	<p>Objecting to possible changes to Greenhill, lovely place to sit and visit, please don't take it away</p>
Shane Seagrave	<p>Greenhill Gardens must be officially protected from destruction by property developments. They are an historic jewel of an open space in our town being greatly enjoyed by both residents and visitors alike.</p>
Sharon Greig	<p>Greenhill Gardens must stay. It is an asset to the local community and visitors and offers peace and seclusion which promotes health and wellbeing for the population. Weymouth is renowned for having poor health statistics.</p> <p>It will be a travesty if housing replaces these beautiful gardens and buildings within it. The gardens are well looked after and tended, this is an area of pride for those gardeners</p> <p>I object</p> <p>Keep Greenhill Gardens</p>
Sharon Goddard	<p>Object to any buildings built around Greenhills, as part of weymouth.</p> <p>Tourists love to sit and enjoy the scenery, and the Sunday events bring in the crowds.</p>

Sharon Guest	<p>I am objecting to Greenhill Gardens not being a protected green space. It is an important attraction along the Esplanade and it would be a mistake to not protect it, to avoid it being developed on in future. Please reconsider and keep this important green space for the benefit of all.</p>
Sheila Grindrod	<p>The Gardens were originally part of the Wilton Estate and were handed over as a gift to the local council in 1902 for "the benefit of the inhabitants of Weymouth". I also understand that there are possible restrictive covenants which limit the use of the gardens.</p> <p>The gardens provide much pleasure for both residents and visitors and are a credit to the town.</p> <p>For the above, it would therefore be very good reasons to add Greenhill Gardens to the list of Local Green Spaces.</p> <p>For the above I am objecting to the plan.</p>
Sian Richards	<p>I am writing to voice my concern why Greenhill gardens is not included in the list of 49 local green spaces and therefore may be used for housing etc.</p> <p>These gardens are a vital space for many people to congregate for socialising, supported by a valued coffee shop and a venue for local entertainment. There are many people living nearby in flats who rely on this beautiful site to meet others thus reducing isolation. Bands perform here regularly in the summer months which is always well attended and holiday makers really enjoy. Therefore I would strongly suggest that Greenhill gardens is added to the list of local green spaces to ensure it remains for everyone to treasure.</p> <p>Kind regards Sian Richards</p>
SJ Evans	<p>Upon reviewing the Weymouth Neighbourhood Plan document, I have identified a significant concern regarding the exclusion of Greenhill Gardens from the designated Local Green Spaces (LGS) list. This omission raises questions about the plan's adherence to the basic conditions outlined in national planning policies.</p> <p>Grounds for Objection:</p> <p>Non-Compliance with National Planning Policy Framework (NPPF). The NPPF allows communities to designate areas of particular importance as LGS, affording them protection consistent with Green Belt policies. Greenhill Gardens established in 1872 a historic and recreational asset that aligns with the NPPF criteria for LGS designation. Its exclusion from the plan contradicts the NPPF's intent to protect spaces of local significance criteria for LGS designation. Its exclusion from the plan contradicts the NPPF's intent to protect spaces of local significance.</p> <p>Inconsistency with Sustainable Development Goals.</p> <p>One of the basic conditions requires that a neighbourhood plan contributes to sustainable development. Greenhill Gardens offers</p>

	<p>environmental benefits, supports biodiversity, and provides a communal space for social interaction and physical activity. Omitting it from protection undermines these sustainable development objectives.</p> <p>Potential Breach of Human Rights Obligations. The European Convention on Human Rights emphasises the right to respect for private and family life, which encompasses individuals' wellbeing derived from their environment. The potential future development of Greenhill Gardens, facilitated by its exclusion from the LGS list, could adversely affect the community's quality of life, potentially breaching human rights obligations.</p> <p>To address these concerns, I propose the following modification to the Weymouth Neighbourhood Plan: Inclusion of Greenhill Gardens in the Local Green Spaces List: Amend the "Local Green Spaces" section to incorporate Greenhill Gardens as a designated LGS. This inclusion will align the plan with national policies, promote sustainable development, and uphold human rights commitments by ensuring the garden's protection for current and future generations.</p> <p>Conclusion: The exclusion of Greenhill Gardens from the Weymouth Neighbourhood Plan's LGS list is a significant oversight that may lead to non-compliance with national and international obligations. I urge the Dorset Council and the independent examiner to consider this objection and modify the plan accordingly to include Greenhill Gardens as a protected Local Green Space.</p>
SJ Sanham	<p>Upon reviewing the Weymouth Neighbourhood Plan document, I have identified a significant concern regarding the exclusion of Greenhill Gardens from the designated Local Green Spaces (LGS) list. I urge the Dorset Council and the independent examiner to consider this objection and modify the plan accordingly to include Greenhill Gardens as a protected Local Green Space.</p>
Stephanie Hart	<p>Objecting : this is a beautiful greenspace, free to all to use. It is part of our fantastic sea front and should stay as is. Weymouth has lost so much its historical past, destroyed by the powers that be, who think that car parks should be of prime importance. Who will use the car parks when all things of interest are gone. We cannot destroy any more of our seafront, the toilets are a prime example also allowing the 'shanty town ' of sheds erected outside hospitality establishments after covid, leaving single file pavement filled with A boards to navigate</p>
Steve Thomson	<p>I'm extremely saddened to see that Greenhill Gardens have been omitted from the list of Local Green Spaces. As a resident for over 50 years I regard these gardens as one of the Crown Jewels of the town for visitors and locals alike and for them not to be protected and maintained would be a dreadful mistake.</p> <p>Upon reviewing the Weymouth Neighbourhood Plan document, I have identified a significant concern regarding the exclusion of Greenhill Gardens from the designated Local Green Spaces (LGS) list. This omission raises questions about the plan's adherence to the basic conditions outlined in national planning policies.</p> <p>Grounds for Objection:</p> <p>Non-Compliance with National Planning Policy Framework (NPPF). I urge the Dorset Council and the independent examiner to consider this objection and modify the plan accordingly to include Greenhill Gardens as a protected Local Green Space.</p>
Steve Wicks	<p>I want Greenhill Gardens to be listed as a Green Space and thus to prevent it being used for any building.</p> <p>It is a special place visited by many with a green flag status and the gardens are renown for their colour and beauty.</p> <p>The gardens also contain a very unique floral clock whose workings have been renewed and are visible.</p>
Steven Porter	<p>As I do not live in weymouth but I know the gardens very well as we come to weymouth every year and look forward to visiting the garden it xan be a little oasis from the hustle and bustle of a busy seaside resort</p>
Steven Wheller	<p>I would like to state that Greenhill Gardens should be protected, as it is not on the protected list. This is of much importance to the local community and visitors. W10 It is a muched valued part of the seafront and should never be developed. It should be protected for generations to come.</p>
Sue Dafter	<p>I am objecting to the plans which don't seem to include Greenhill Gardens. The gardens are a precious local resource and deserve to be properly protected. Therefore, please accept this as my objection to the neighbourhood plans which exclude them.</p>
Sue Farmer	<p>I believe that Greenhill Gardens have been excluded from policy W10: Local green spaces.</p> <p>I wish to object to this exclusion. Greenhill gardens are a valuable and essential part of our community assets. To be able to enjoy the wide variety of activities and the beautiful gardens is a massive boost to our mental health. The facilities available there are for all to use and should not be concreted over to provide yet more profits for developers who have no interest in the local population and their needs.</p>
Sue Larter	<p>I am just a member of the public who along with family very much enjoy the gardens and feel very strongly that they are used for building</p>
Sue Stokey	<p>I wish to request that Greenhill Gardens be included in the green spaces in the latest neighbourhood plan.</p>
Sue Tilley	<p>I am objecting to the omission of Greenhill Gardens from the list of local green spaces - Neighbourhood plan policy W10 Local Green Space (pages 54 - 60)</p>

	<p>Greenhill Gardens is a renowned historical feature of the Weymouth seafront beloved by both locals and visitors.</p> <p>There are many unique features within this beautiful and well used space and I fail to understand why it has been omitted to your list.</p> <p>To confirm I am objecting strongly to the omission of Greenhill Gardens to the list of local green spaces where if included the Gardens would be protected by the National policy for Green belts.</p>
Susan Clark	<p>Weymouth Neighbourhood plan 2021-2038. Policy W10 Local Green Space p.54 to 60</p> <p>My objection is the fact that Greenhill Gardens have been omitted from the list of protected green spaces.</p> <p>I have been shocked to realise that our elected representatives on the Weymouth Town Council have omitted to include the historic Greenhill Gardens in their list of protected green spaces in the Weymouth Neighbourhood Plan for the town. The Gardens are a big attraction on the seafront that have been supported by a 'friends' group FOGG for many years. They have been loved, used and improved by financial contributions of local residents as well as visitors to Weymouth over a long period of time. The gardens have been awarded green flag status for a number of years, various projects have been funded by their donations including the memorial arch at the entrance, and only last year the total refurbishment of the unique floral clock and a newly rebuilt 'clock house' was completed. There are additionally musical events arranged on Sunday afternoons, free to all, throughout the summer season. It is unbelievable that they are not listed as a green space and this should immediately be rectified.</p> <p>It is unbelievable that they are not listed as a green space and this should immediately be rectified.</p>
Susan Ellen	<p>I am against any future planning to change the gardens from being a social space.. the gardens should be recognised as a protected space.. firstly the residents of Weymouth love their space and relaxation the gardens bring, community activities and socialising.. the holiday season and the guests that arrive love their space gardens and their spectacular views.. a real gem we should all be proud of.. there comes a point when a beautiful view should not be for the few that could afford to live there but for the many that have had special memories made there</p>
Susan Harley	<p>Greenhill Gardens should be a protected open space</p>
Susan Jones	<p>Weymouth has very little to offer residents and visitors and Greenhill Gardens gives locals a place to gather away from the hustle of the main beach. It's a lovely place to sit and reflect, have a picnic with family/friends or sit and enjoy both the view and or the artists who perform there throughout the summer months. KEEP GREENHILL GARDENS AS IT IS!</p>

Susan Kirkaldie	The gardens are a fabulous asset to Weymouth and enjoyed by both locals and visitors. They host several weekend live events during the summer months which are well attended. It would be of no benefit to the local environment for this area to be built on/used for housing as, given the location, the accommodation would no doubt be unaffordable for locals to purchase
Susan Lindsey	I object to this plan. Greenhill gardens is a beautiful open space close to the beach that families and residents enjoy. This space needs protecting. Having housing there instead will completely spoil the landscape and will be detrimental to our beautiful town.
Susan Pether	In the Local Plan Greenhill Gardens and Greenhill Bowling Club are not being designated as a Green Space. I object and request that this area should be designated as a green space as it serves the community and visitors alike. The gardens are a pleasure to visit and I enjoy the peacefulness of them and the occasional entertainment they provide. The bowling club is a real asset for young and old residents. It attracts hundreds of tourists every year who come to the club to try out their skills. The gardens, bowling club and crazy golf offer an alternative to the bustle of the town centre with its seaside shops and arcades. The whole of Greenhill is a wonderful recreational space for those of us who like to stay active and support local clubs and use their facilities.
Suzanne Osborne	Protection of Greenhill Gardens needs to be considered. It is used by the community throughout the year and needs to be preserved.
Terence Ansell	The Greenhill Gardens should be protected from any future development and preserved and protected for future generations to enjoy
Terence Timms	I am objecting to the neighbourhood plan as it does not show Greenhill gardens as a designated leisure area Therefore I am requesting the plan is changed to reflect this
Theresa Parker (1)	Greenhill gardens is the only bit of green space along Greenhill. The gardens are used by many to walk through, sit and enjoy the beautiful flowers and scenery. There is a cafe that many people sit and enjoy some light refreshments. In the summer, small concerts take place for a couple of hours on a Sunday afternoon. Many people attend to sit and enjoy the music. I am sure this will help trade with the cafe also. There are beach/garden chalets at the end of the garden and a lovely putting green. Greenhill gardens are part of Weymouth history and have been enjoyed by many for years. It would be such a shame to see these gardens go.
Theresa Parker (2)	I have previously submitted concern about not keeping Greenhill gardens as a green space. I would like to add to this. Greenhill bowling club is also part of Greenhill gardens along with tennis courts and the cafe next to the tennis courts and bowls club. All are used by many members of the public and rely on passing public to call in. So Greenhill gardens and all green areas should stay.
Tim Day	Having read the proposal I was puzzled and alarmed by the omission of Greenhill Gardens from the list of Local Green Spaces. As a sanity check I looked at the list to try and see if there was any logical reason for it's omission. I could not see any reasons for it being missing. I am unsure if this is by conspiracy [REDACTED] I hope it is the latter.

	Greenhill Gardens are a welcome area of greenery which gives access to fine sea views and is a valuable asset to both locals and visitors alike.
Tim Freeborn	These gardens have a historic presence to Weymouth and must not be developed.
Tim McCarthy	Green hill isn't currently included in the 49 green spaces protected by the green belt and thus protected from future development e.g. house building, etc
Timofei Yermeyev	<p>Dear Weymouth Neighbourhood Plan Team,</p> <p>I am writing to formally object to the omission of Greenhill Gardens from the list of Local Green Spaces in the Weymouth Neighbourhood Plan. As a long-term resident of the area for the past 16 years, I have seen firsthand how vital Greenhill Gardens is to both the local community and visitors.</p> <p>Greenhill Gardens is the only significant green space along the Weymouth seafront. It is not only a place of beauty but also an essential recreational space used by both tourists and local residents alike. The gardens provide a peaceful, well-maintained environment for relaxation, exercise, and social gatherings, contributing to the well-being of the community.</p> <p>Furthermore, Greenhill Gardens offers a range of facilities that enhance its value, making it a cherished space for people of all ages. Its historical significance, combined with its environmental importance, makes it an irreplaceable part of Weymouth's heritage.</p> <p>Excluding Greenhill Gardens from the Local Green Spaces list puts it at risk of neglect or development. Given the council's past attempts to lease parts of the gardens to developers, its protection is crucial. Without official recognition, there is a real danger that future financial pressures could lead to its deterioration or loss.</p> <p>I strongly urge you to reconsider and add Greenhill Gardens to the list of Local Green Spaces in Policy VW10. Protecting this vital green area is in the best interest of both current and future generations.</p>
Tina Baker	detrimental to local people's mental health if the gardens were taken away including those that visit and spend money to stay on holiday that use these gardens
Tony Whiteley	<p>I understand that Greenhill Gardens are NOT protected and may be subject to future development.</p> <p>How can this be allowed? Portland is sadly lacking behind Weymouth in public amenities. Greenhill represents a quiet reflective area to sit, admire the view, even in the winter. It's a poignant dignified area to remember our lost during the Remembrance Sundays. This is a flowery green gem amidst Portland's magnificent bleakness. It cannot, and must not be lost to developers. Our little oasis of peace and leisure is precious to us here. I thank you and hope decency and commonsense prevail. Regards Tony Whiteley.</p>

Trish Arnold	Why would you what to Hyde view from everyone else and build house Such lovely garden And for people to chill out and relax, looking out to this wonderful view
Vanessa Hayes	This green space should be able to be enjoyed by everyone, now and in the future
Victoria Dudley	These gardens are loved and used by locals and visitors it is an area of peace and calm to escape what can be madness on the promenade particularly for the elderly and disabled. To lose it would affect the entire concept of the seafront building properties on the site would be another example of discouraging people to avoid the area.
Viviane Horne	I object to the ommission of Greenhill gardens in the list of green spaces in the Weymouth Neighbourhood plan. Is this an oversight? Surely Greenhill gardens is an historic gardens treasuerd by the local community and visitors. Please ammend the list to include the gardens, it is unthinkable that the land might be used for developement!
Vivienne Gillam	Neighbourhood Plan is Policy W10: Local Green Space which is found on pages 54 to 60 I am objecting to the plan as I believe Greenhill Gardens should be given special protection
Wendy Simmonds	This beautiful part of Weymouth seafront should be protected. The volunteers work tirelessly to keep this area clean and gloriously in bloom. We won't have any green spaces left soon, if we don't protect them. Save Greenhill Gardens.
Zoë	I am objecting to the plan because Greenhill Gardens has not been included and protected. This is terrible for the town and needs addressing immediately. To overcome my objections the plan needs to add Greenhill Gardens and somebody needs to be accountable as to why it wasn't on there in the first place. Corruption comes to mind!
