I reside in Preston and vehemently oppose the plan to build so many houses in Preston, especially on previously protected greenfield sites. Greenfield sites are important for many reasons including potential impact on wildlife, biodiversity, clean air production, flood control, which are diminished when building so many homes. I feel that there has been too much of a focus on Preston in the development plan and this is unfair on the residents.

Also to take into account is the Littlemoor urban development taking place which will create a lot more traffic on the Littlemoor road going east towards Preston. The present infrastructure is not sufficient to serve the number of people and cars and infrastructure should be a priority before creating an urban sprawl.

Continue on a separate sheet if necessary

5. Please give details of any suggested modifications in the box below.

I suggest that brownfield sites and empty buildings should be given more consideration when planning further housing developments. Infrastructure should also be a priority.

Smaller developments should also be considered.
