

## Responses to Issues SS1 to SS5: ' Settlement Strategy'

*Christchurch and East Dorset Core Strategy consultation: Issues + Options March 2008*

In March 2008 Christchurch and East Dorset councils consulted on the joint Core Strategy Issues and Options document. The questions asked under the above theme were:

### Key Issue SS1

**What overall settlement strategy should we adopt to shape development across Christchurch and East Dorset?**

The options offered in the consultation were:

- A. Focus major housing and commercial development in the main towns, with particular focus on town centres and highly accessible locations
- B. Aim for a more even spread of development involving all towns and larger villages
- C. Use urban extensions as a focus of new housing and commercial development to enhance the role of the settlements concerned
- D. Specifically target a proportion of new development to enhance the vitality and viability of rural villages
- E. Other

Summary of responses received for each option:

Option	Agree	Disagree	No Opinion	Suggestions For Other Issues
A	87	52	4	n/a
B	56	68	10	n/a
C	65	55	15	n/a
D	64	54	11	n/a
E				56

## Key Issue SS2

**Do you believe that the existing settlement service and employment functions should stay as the focus for their future, or be widened?**

The options offered in the consultation were:

- A. Yes
- B. No, other functions should be widened. If so, which functions should provide the focus for future investment?

Summary of responses received for each option:

Option	Yes
A	46
B*	

\*Due to the nature of the questions asked it is not possible to provide a numerical response to this question. Please see the full response later in this report.

## Key Issue SS3

**In the light of the draft Regional Spatial Strategy policies which if any policy should apply?**

Due to the nature of the questions asked it is not possible to provide a numerical response to this question. Please see the full response later in this report.

## Key Issue SS4

### How do we ensure that development is focused towards sustainable locations within settlements?

The options offered in the consultation were:

- A. Increase residential densities in close proximity to facilities and employment opportunities
- B. Keep lower residential densities on sites distant from facilities and employment opportunities
- C. Increase residential densities in areas with convenient access to public transport
- D. Keep lower residential densities in locations distant from public transport stops
- E. Focus facilities and employment opportunities towards established centres
- F. Develop local centres to serve outlying housing areas
- G. Let the market decide where to focus development
- H. Other

Summary of responses received for each option:

Option	Agree	Disagree	No Opinion	Suggestions For Other Issues
A	94	27	7	n/a
B	75	25	9	n/a
C	98	12	6	n/a
D	64	26	12	n/a
E	104	14	6	n/a
F	75	28	10	n/a
G	37	62	12	n/a
H				23

General comments:	Development in most rural villages has been so constrained as to threaten their vitality and viability. There are likely to be some areas around the rural villages which, if carefully selected, could be developed without serious loss of landscape, amenity or wildlife and this could be utilised to both improve the viability of the village, promoting the preservation or provision of local services, and reduce the pressure for development on sensitive areas elsewhere

**Issue:** SS1      **Contact ID:** XED3036      **Surname:** LOFTHOUSE      **Unique Response Ref:** CSIO-37241  
**Option:** D      **Organisation:** Crichel Estate

**Response:** The settlement strategy discussed in the council's recent Core Strategy Issues and Options Discussion Paper (Mar 08) recognises opportunities for facilitating development in smaller settlements - where that would deliver wider community benefits including for housing, employment, cultural and other community facilities. The settlement strategy (Issue SS1) therefore should allow for a proportion of new development to enhance the vitality and viability of rural villages, option D recognising the positive effect that additional development can have on enhancing the role of local rural communities to act as sustainable local centres for rural areas. In relation to the smaller settlements within East Dorset where the estate has land interests, opportunities to deliver sustainable forms of development, including housing, employment, retail, health, social and community facilities, leisure/recreation, tourism and cultural facilities (IssueSS2), should be encouraged.

**General comments:**

**General comments:** When considering the option for the location for development a crucial factor is to avoid areas of intrinsic landscape and wildlife value which might exist in the context of any of the options A-D. Having now turned the tide of development pressure away from the heaths and their immediate surrounds, and having hopefully recognised the folly of allowing development in the river valleys which are subject to flood risk, the remaining important areas of high intrinsic value mainly are those of small fields, hedges and copses which are primarily located in an arc between the heaths and the chalk lands.

The approach should be to identify areas which have low intrinsic wildlife value (and whose development offers biodiversity sustainability) through avoiding existing biodiversity and offering the opportunity to create new biodiversity) and see which of those are most sustainable in respect of other criteria

It should not be that other sustainability criteria are placed first, and biological sustainability then ignored.

Response:

**General comments:** The settlement strategy should reflect that as set out in the draft South West Spatial Strategy as recommended to be modified in the Panel Report. In particular there should be clear emphasis on providing for the majority of development at those settlements that form part of the SSCT. Corfe Mullen is identified in the draft RSS as part of the conurbation and SSCT, being recognised as a sustainable location for further housing development by way of an urban extension in area of search N. within this area of search land between Blandford Road and Newtown Lane is centrally located between the existing urban land area and area of search and is ideally placed to accommodate residential and commercial uses. This site should be highlighted as ideally placed to site commercial uses along the active Blandford Road frontage with housing on the remainder of this site.

General comments:	Sufficient land needs to be allocated to cater for the growth of the area as required in the RSS and Panels report. This will require difficult and unpopular decisions to be made. To continue to concentrate development within urban areas will ultimately harm their unique historic character and appearance. The use of greenfield sites will be necessary to provide for sufficient new homes and employment and to provide recreational uses to support growing communities. Consequently, growth should not just be centred on existing towns, but rural communities should also be encouraged to grow and expand to maintain their vitality and top support local facilities

Response:

General comments: The question relates to the retention or widening of existing functions of the settlements. We consider that the issue in relation to settlements is related to the amount of additional development that can be reasonably and sustainably accommodated to support a range of functions. So the majority of the Districts growth should be focused at Wimborne and the RSS Panel recommendations should be seen as the minimum to be allocated.

Issue: SS1 Contact ID: XED1609 Surname: PALMER Unique Response Ref: CSIO-23903  
Option: E Organisation: Site Developments (Ferndown) Ltd (represented by Goadsby)

Response:

**General comments:** Ferndown is a key settlement in the context of South East Dorset having a range of functions and the potential to support further growth of these functions, in particular employment development. The town is a focal point for residential, employment, retail, social infrastructure, leisure and recreation uses.

The draft SWRSS recognises that the South East Dorset conurbation, including identified towns such as Ferndown form one of the south coasts major urban centres, with a significant role in delivering the sustainable communities agenda. The draft RSS and Panel Report recognise the important function of Ferndown by highlighting the need for an urban extension of 20 hectares for employment purposes in 'area of search Q'. In this context an extension for employment purposes to the east of the Ferndown Industrial Estate should be planned for as it offers the most sustainable option within the area of search.

The draft RSS states in paragraph 4.3.13 that 'urban extensions will be required to provide a variety of choice in terms of location and quality, complementing urban development. Ferndown (area of search Q west of Ferndown), subject to the provision of necessary infrastructure, is considered to provide the most sustainable location to accommodate the anticipated range and quality of employment sites necessary to deliver economic requirements.' In this context land to the east of the industrial estate can accommodate approximately 4 hectares.

The South West Regional Assembly Roger Tym and Partners report entitled 'Functional Analysis of Settlements 2005' recognises the important function of Ferndown. The town is acknowledged in the report as the 13th largest centre in the south west for employment outside the PUAs. The study recognises the significance of Ferndown, confirming that the town performs a complementary role to the wider conurbation. The report highlights that the structure plan has identified the town as a service centre, stating 'Thus they (including Ferndown) are currently performing a number of other important functions as well as being strong employment centres for their surrounding areas'.

For further justification and plan of the proposed urban extension see supplementary representations.

Issue: SS1 Contact ID: XED2554 Surname: PALMER Unique Response Ref: CSIO-22625  
Option: E Organisation: Capital Developments (Southern) Ltd (represented by Goadsby)

Response:

**General comments:** The settlement strategy should reflect that as set out in the draft South West Regional Spatial Strategy as recommended to be modified in the Panel Report. In particular there should be clear emphasis on providing for the majority of development at those settlements that form part of the Strategically Significant Cities and Towns (SSCT)

Colehill is identified in the Draft RSS as part of the conurbation and SSCT, being recognised as a sustainable location for further housing development by way of urban extensions. Within this context the SW RSS Panel Report, paragraphs 4.7.39 and 4.7.57, emphasises that it is sustainable to release green belt land in such a location and that specifically East Dorset District should make provision for an additional 1000 dwellings on greenfield sites, beyond the 2400 dwellings at the areas of search, by way of urban extensions. Land at Leigh Lane, Colehill, on the inner edge of the greenbelt is ideally located to meet part of this requirement.

For further justification and plan of the proposed urban extension see supplementary representations.

**Option:** E      **Organisation:** Libra Homes (represented by Goadsby)

**Response:** [Empty box]

**General comments:** The settlement strategy should reflect that as set out in the draft South West Regional Spatial Strategy as recommended to be modified in the Panel Report. In particular there should be a clear emphasis on providing for the majority of development at those settlements that form part of the Strategically Significant Cities and Towns (SSCT). Ferndown is identified in the Draft RSS as part of the conurbation and SSCT, being recognised as a sustainable location for further housing development by way of urban extensions. Within this context the SW RSS Panel Report, paragraphs 4.7.39 and 4.7.57, emphasises that it is sustainable to release green belt land in such a location and that specifically East Dorset District should make provision for an additional 1000 dwellings on greenfield sites, beyond the 2400 dwellings at the areas of search, by way of urban extensions. Land at Holmwood Park, South Ferndown, on the inner edge of the green belt, is ideally located to meet part of this requirement, no other alternatives are available at this main settlement due to considerable environmental constraints, similarly these heathland constraints severely limit the potential of the urban area to provide for brownfield sites. For further justification and plan of the proposed urban extension see supplementary representations.

Issue:  Contact ID:  Surname:  Unique Response Ref:   
 Option:  Organisation:

Response:

**General comments:** The Issues and Options paper has failed in the text to recognise the findings of the Panel Report where, at paragraph 4.7.4, it is made clear that Verwood forms part of the SSCT. The panel state they support the view that functionally Verwood forms part of a group of settlements collectively operating as one. The list of RSS Policy A settlements set out on page 22 of the Issues and Options paper should also include Verwood, it is unclear why this is not the case.  
 The settlement strategy should then reflect that as set out in the draft South West Regional Spatial Strategy as recommended to be modified in the Panel Report. In particular there should be a clear emphasis on providing for the majority of development at those settlements that form part of the Strategically Significant Cities and Towns (SSCT).  
 Verwood is also identified in the Draft RSS, paragraph 4.3.2, as part of the conurbation and SSCT, being recognised as a sustainable location for further development by way of urban extensions. Within this context the SW RSS Panel Report, paragraphs 4.7.39 and 4.7.57, emphasises that it is sustainable to release green belt land in such a location and that specifically East Dorset District should make provision for an additional 1000 dwellings on greenfield sites, beyond the 2400 dwellings at the areas of search, by way of urban extensions. Green field land at Noon Hill Road, Verwood, can meet part of this requirement. Alternatively the site is well placed to accommodate a C2 use in the form of a care or nursing home.  
 For further justification and plan of the proposed urban extension see supplementary representations.

Issue:  Contact ID:  Surname:  Unique Response Ref:   
 Option:  Organisation:

Response:

**General comments:**

Issue:  Contact ID:  Surname:  Unique Response Ref:   
 Option:  Organisation:

Response:

**General comments:** Within the East Dorset District Council area the RSS Panel identified the following settlements as part of the SSCT:  

- Wimborne Minster
- Colehill
- Ferndown
- West moors
- St Leonards and St Ives
- Verwood
- Corfe Mullen

 With regard to the East Dorset District Council area, therefore, the Core Strategy must focus development on those settlements in order to be sound.

Issue: SS1 Contact ID: XED1176 Surname: BROOKS Unique Response Ref: CSIO-17870  
Option: GENERAL Organisation:

Response:

**General comments:** In the Draft R.S.S. Document only Bournemouth and Poole were regarded as "Strategically Significant Cities and Towns (SSC)'s) in South East Dorset. Now, apparently as a result of an observation during their coach tour of the area, the Panel have decided the SSCT designation should be widened to include smaller Towns and villages including, incredibly, St. Leonards and St.Ives. How can St. Leonards and St. Ives be categorised as either a Town or a city? The R.S.S. is absolutely incorrect to suggest that: - " Functionally, Bournemouth, Poole, Christchurch, and the surrounding settlements such as Wimborne, Colehill, Ferndown, West Moors, Verwood and St. Leonards and St. Ives collectively operate as one. Furthermore, Ferndown/West Parley should not be seen as an extension of northern Bournemouth. This absurd categorisation of St. Leonards and St. Ives must be changed. There is no way that St. Leonards and St Ives can be included under Development Policy A. Development Policy C or more appropriately C2 are the only Development Policies which could be applied to this Parish.

Issue: SS1 Contact ID: XED1363 Surname: BURDEN Unique Response Ref: CSIO-18102  
Option: GENERAL Organisation: Cranborne Chase & West Wiltshire Downs AONB

Response:

**General comments:** Key Issue SS1 overall settlement strategy. The AONB would favour option A. We would be concerned about targeting 'a proportion new development' on villages as this could be open to misinterpretation

Issue: SS1 Contact ID: XED2442 Surname: HELLIER Unique Response Ref: CSIO-18110  
Option: GENERAL Organisation: Highways Agency

Response:

**General comments:** The Agency would support Option A, which seeks to focus major development proposals in the main towns, as this would assist with increasing levels of self containment. However, the Agency recognises that other smaller settlements may also be suitable for more limited levels of development commensurate to their scale and extent of existing facilities and jobs. Significant development should not be proposed in those settlements which are not accessible by a range of transport modes. Careful consideration should also be made to siting new housing development in locations proximate to the SRN, as without corresponding local employment this could encourage out-commuting and increase congestion on the SRN.

Issue:	SS2	Contact ID:	XED2442	Surname:	HELLIER	Unique Response Ref:	CSIO-18111
Option:	A	Organisation:	Highways Agency				
Response:	Yes						
General comments:	In considering the future focus for settlements the Agency would stress the importance of seeking to strive towards the creation of balanced and self contained communities. Therefore, if a particular settlement is experiencing high levels of outcommuting, it would be appropriate to explore a shift in focus towards employment development in order to relieve pressure on the SRN.

**Issue:** SS2      **Contact ID:** XED1432      **Surname:** CHITTENDEN      **Unique Response Ref:** CSIO-03402  
**Option:** GENERAL      **Organisation:** Environment TAG (East Dorset)

**Response:** Services/retail outlets and employment functions in all settlements should be consolidated to increase their sustainability. Centres should give a focus to former/existing settlements so making them visually more attractive to encourage people to make more use of them. The open countryside between these settlements must be maintained to ensure that their separate identities are retained.

<b>Option:</b> WIMBORNE	<b>Organisation:</b> White Young Green		
<b>Response:</b>	Yes Employment, Retail, Health, social & community facilities, Leisure & recreation, Tourism, Culture,		
<b>General comments:</b>	Wimborne is the appropriate location for the all the additional developments identified in the issue. Other settlements outside the SSCT generally have a restricted local function and the aim of strategy should be to maintain their functions not to widen them.  The Core Strategy begins to address some of the deficiencies in the work which informed the RSS and it is of concern that the economic potential of settlements such as Wimborne had not been fully explored in the context of the wider economic needs of South East Dorset. There are significant travel to work flows from Wimborne to Bournemouth and Poole and almost equal flow in the opposite direction such that net flows are approaching zero. Therefore Wimborne has the potential for achieving economic self sufficiency and a sustainable pattern of development.

**General comments:** In the RSS panel report St Leonards and St Ives are included in the "Strategically Significant Cities and Towns of the region"  
Absolutely absurd!  
We should be considered under Policy C/C2

---

**Issue:** SS3      **Contact ID:** XED1667      **Surname:** FREEMAN      **Unique Response Ref:** CSIO-19312

**Option:** GENERAL      **Organisation:** The Theatres Trust

**Response:** [ ]

**General comments:** We note that the Draft RSS Policy B recommends development for suitable settlements for a wide range of shopping, cultural ..... and public services. Please include 'cultural' facilities in your policy for a settlement strategy.

---

<b>Issue:</b> SS3	<b>Contact ID:</b> XED2442	<b>Surname:</b> HELLIER	<b>Unique Response Ref:</b> CSIO-18112
<b>Option:</b> GENERAL	<b>Organisation:</b> Highways Agency		
<b>Response:</b>			
<b>General comments:</b>	The Agency is not in a position to comment on the role of each settlement in comparison to the settlement strategy set out in the draft RSS as this requires detailed analysis. However, in assessing the role of each settlement, the Agency recommends that full consideration is given to the existing sustainable transport provision including public transport, walking and cycling facilities.

supports small-scale economic activity which fits the scale of the settlement and can accommodate the future growth of businesses in the development permitted; or extends the range of services available including outreach delivery of services, making use of existing premises where possible; and does not significantly increase traffic on local roads and where traffic implications can be demonstrated to be acceptable; and promotes self containment, strengthens local communities, and helps to support key services.

Local Planning Authorities are able to identify or allocate housing in these settlements where it relates to requirements identified in housing market assessments and other studies of local needs for housing verified by the local authority or where housing development is necessary to support employment provision locally. The settlement of Three Legged Cross contains a range of employment and community facilities, and has potential to accommodate additional development and facilities to strengthen the local community and to promote selfcontainment. We therefore consider that Three Legged Cross should be classified as a Policy C1 settlement

General comments:	Attractive and truly local centres are essential to any community and its sustainability. Most carbon emission is achieved at the start of a journey, so that even short car journeys to a town centre are damaging. Small local centres within easy walking and cycling distance/relief are essential and can be provided/enhanced in development located for biological sustainability if these do not already exist or are inadequate.

**Issue:** SS4      **Contact ID:** XED2305      **Surname:** FARROW      **Unique Response Ref:** CSIO-03364  
**Option:** GENERAL      **Organisation:** De Vere Hotels (represented by Nathaniel Lichfield & Partners)

**Response:** De Vere supports focussing development towards suitable locations which offer a range of community facilities and with good access to jobs, key services and infrastructure. In this respect, De Vere considers that the focus of the policy should be on the development of suitable, available and previously developed sites. Such an approach is supported by PPS3, paragraph 40 of which states: "A key objective is that Local Planning Authorities should continue to make effective use land by re-using land that has been previously developed".

In accordance with this guidance, De Vere considers that redundant sites in suitable locations should be the focus of development and, only when these sites are exhausted, should urban extension sites be allocated.

**General comments:**

---

**Issue:** SS4      **Contact ID:** XED2442      **Surname:** HELLIER      **Unique Response Ref:** CSIO-18113  
**Option:** GENERAL      **Organisation:** Highways Agency

**Response:**

**General comments:** In order to ensure that development is focused towards sustainable locations within settlements a combination of the proposed options may be considered appropriate. The only option the Agency has some concern over is Option G, which suggests that the location of development could be driven by market forces. Given the recognised need for the integration of land use and sustainable transport planning this option is seen to undermine the wider aims of the LDF process.

Issue: SS4 Contact ID: XED2405 Surname: MOLNAR Unique Response Ref: CSIO-17731  
Option: GENERAL Organisation: For Persimmon & Banner Homes (represented by Terence O'Rourke)

Response:

**General comments:** In order to ensure that development is focussed towards sustainable locations within settlements, it is important that:  
1) Residential densities are increased in close proximity to facilities and employment opportunities, and particularly within the proposed urban extensions, whilst taking account of the character of the existing neighbourhood.  
2) residential densities are increased in areas with convenient access to public transport, and  
3) Facilities and local employment opportunities are focussed towards established centres.  
  
The South East Dorset Local Transport Plan (2006-2001)(SEDLTP) sets out key Visions for Transport in South East Dorset. One of the key points discussed related to:  
  
1) The promotion of development near Prime Transport Corridors, along which and to which walking and cycling routes will be developed to maximise shorter local journeys using these modes.  
  
Paragraph 2.14 of the SEDLTP in particular, discusses making provision for urban extensions:"to manage use of the transport network and locate development so as to minimise the need to travel within the conurbation and reduce the proportion of journeys made by single occupancy cars." Parley Cross, West Parley is discussed as being a potential urban extension site to accommodate up to 900 dwellings.  
  
See also, policy TRANS1 of the Examination in Public Panel Report to the draft RSS which reiterates the role of self containment of development reducing the need to travel.  
  
In this context, the location of a residential urban extension at West Parley, in proximity to the strategic employment proposed for Bournemouth Airport, along with the provision of public transport, cycling and walking links between these sites and improvements to local road infrastructure, would be a sustainable proposal that would help to reduce the need to travel.

Issue: SS4 Contact ID: XED0250 Surname: Unique Response Ref: CSIO-22220  
Option: H Organisation: Ringwood Town Council

Response:

**General comments:** Flexibility above all and beware of urban cramming

Issue: SS4 Contact ID: XED3035 Surname: ABBOTT Unique Response Ref: CSIO-37226  
Option: H Organisation: Home Builders Federation

**Response:** PPS3 requires an evidence based approach, therefore the HBF would object to any option not founded on a sound, robust and credible evidence base, in this case and up to date SHMA and SHLAA, which have been produced in partnership with stakeholders, as the market is more likely to respond quickly to changes in demand than planning policy.

**General comments:**

---

Issue:	SS4	Contact ID:	XED2557	Surname:	HAVELOCK	Unique Response Ref:	CSIO-23523
Option:	H	Organisation:					
Response:							
General comments:	The area of search for 700 dwellings at Corfe Mullen offers a sustainable location for major development. The question does not reflect the emphasis of the settlement strategy being put forward in the draft RSS. A significant proportion of growth will have to take place on greenfield sites not "within" the settlements. Urban extensions should be recognised in the Core Strategy as being a sustainable option to accommodate future development requirements. Such sites should be developed at 40-50 dph as recommended in the RSS Panel Report (paragraph 6.22 and Policy H2)

<b>Issue:</b> SS4	<b>Contact ID:</b> XED2088	<b>Surname:</b> PACKHAM	<b>Unique Response Ref:</b> CSIO-23086
<b>Option:</b> H	<b>Organisation:</b> White Young Green		
<b>Response:</b>			
<b>General comments:</b>	The objective should be to make the best and most efficient use of land while securing high quality development. Prescribing densities is not appropriate though options C and F are appropriate interpretations of national policy.		

<b>Issue:</b> SS4	<b>Contact ID:</b> XED2088	<b>Surname:</b> PACKHAM	<b>Unique Response Ref:</b> CSIO-23079
<b>Option:</b> H	<b>Organisation:</b> White Young Green		
<b>Response:</b>			
<b>General comments:</b>	The major focus for new development in East Dorset should be on Wimborne. That is very clear from the RSS work and the strategy for S. E. Dorset. Wimborne not only has a range of services and facilities but additional development at the town would enhance and widen the services that are available. Further the scope for development elsewhere in the sub region is limited therefore we consider that the identification of Wimborne and Colehill as a part of the SSCT Policy A settlements is the correct and well founded approach to the accommodation of development in S.E. Dorset.		

<b>Issue:</b> SS4	<b>Contact ID:</b> XED1609	<b>Surname:</b> PALMER	<b>Unique Response Ref:</b> CSIO-23906
<b>Option:</b> H	<b>Organisation:</b> Site Developments (Ferndown) Ltd (represented by Goadsby)		
<b>Response:</b>			
<b>General comments:</b>	The identification of an employment urban extension to the east of the Ferndown Industrial Estate will enable a sustainable land use pattern to emerge where development is guided to more sustainable locations. Clustering of employment uses has recognised advantages; therefore employment development should be focused towards established employment areas, not necessarily 'within' as suggested by the question as this will severely limit available space.

Issue: SS4 Contact ID: XED2552 Surname: WOODCOCK Unique Response Ref: CSIO-22554  
Option: H Organisation: Environment Agency

Response:

General comments: Option H – Sustainable locations need to have due consideration to the findings of the SFRA and the requirements of PPS25.  
Consideration will need to be given to development within Source Protection Zones (SPZ). This will involve assessing the potential pollution risks associated with the type of development proposed. For example we would consider residential development as low risk however, a petrol station or heavy industry would be classed as high risk and we may oppose this type of development being located within these areas.  
Development should be located within areas served by a public sewer, this is in accordance with Circular 3/99 (Planning requirement in respect of the Use of Non-Mains Sewerage incorporating Septic Tanks in New Development). We recommend consulting the various sewerage undertakers in respect to capacity and any future foul infrastructure improvements.

Issue: SS5 Contact ID: XED2324 Surname: BROWN Unique Response Ref: CSIO-06264  
Option: GENERAL Organisation: A&R Developments (represented by Sibbett Gregory)

Response:

General comments: The assessment of the area is unsound. It is too simplistic. The area is more diverse with some substantial non-residential developments, such as Woolsbridge which perform an important role in providing local employment to the residents of West Moors, Three Legged Cross and Verwood. Woolsbridge is so substantial that it should be treated together with nearby towns/large villages as suitable for locally significant development (Policy B of the Regional Spatial Strategy). In this case, a developable area of 8-10 hectares of employment land could be provided. That is not regionally significant but it is locally significant.

<b>Response:</b>	No		
<b>General comments:</b>	By definition, sustainability requires no overall adverse change to our environment. If we fail to identify and protect our natural ecosystems we are not embracing the principles of sustainability.

General comments: Biological sustainability has been overlooked as argued in SSI E. Consider the need to maintain the identity and separation of settlements. This can easily be lost if the strategy of continually adding to and infilling between existing settlements in the mistaken belief that this automatically constitutes sustainability is adhered to/

<b>Issue:</b> SS5	<b>Contact ID:</b> XED2442	<b>Surname:</b> HELLIER	<b>Unique Response Ref:</b> CSIO-18114
<b>Option:</b> GENERAL	<b>Organisation:</b> Highways Agency		
<b>Response:</b>	No		
<b>General comments:</b>	The supporting text should further highlight the existing stress on the SRN and the need to mitigate the forecast worsening of this situation though spatial planning. It needs to be made clear at this early stage that the settlement strategy is looking to develop areas where sustainable travel is good or has strong potential. Ideally development will be located where self containment can be encouraged in order to reduce the need to travel all together for certain activities.		

<b>Issue:</b> SS5	<b>Contact ID:</b> XED2442	<b>Surname:</b> HELLIER	<b>Unique Response Ref:</b> CSIO-18109
<b>Option:</b> GENERAL	<b>Organisation:</b> Highways Agency		
<b>Response:</b>			
<b>General comments:</b>	The Agency supports the notion that a key consideration behind the settlement strategy will be access to employment, services and facilities without extensive reliance on car use. Whilst the issues raised by the Council are supported, the Agency would wish to see further evidence that the implications of settlement strategy options on the SRN have been fully considered. In particular the Agency would wish to see acknowledgement at this early stage that, where development is shown to increase flows on the SRN, the council will enforce measures to mitigate traffic increases and secure infrastructure improvements through developer funding.

<b>General comments:</b>	<p>Carbon footprinting should be undertaken to inform the relative merits of different potential urban extension locations. There is an urgent need to drive down domestic CO2 emissions and at a rate faster than is currently being achieved to meet the scale and rapidity of cuts being put forward in scientific advice. The forthcoming climate change bill will set a key context. More could be done in planning development locationally to reduce future carbon emission potential.</p> <p>Residential development is a significant carbon generator, from construction (the carbon produced in making the materials, their transport and the construction phase) and then its use. The construction carbon is likely to be similar irrespective of location and can be generically influenced by design and material sourcing standards. Use generated carbon can also be influenced generically by design standards (e.g. on heating) but is also likely to include a factor that varies by location. For example differences in travel generation (to work, school, facilities etc), water pumping and treatment requirements in different areas (drinking, foul and, in low lying areas, surface water) and other utility service provisions. In assessing the proposals these factors could be usefully accounted through carbon footprinting.</p>
