

Session 17: AS-13 Roeshot Quarry Extension, Christchurch

In general we are very impressed with the Inspector's questions, not only on strategic matters but also on the details. An example of the latter is question 125 regarding haulage and the Christchurch Urban Extension. Looking at the green space in Taylor Wimpey's plans, the access road to the quarry looks potentially dangerous, as noticed by the Inspector.

Session 4: question 33

We were also impressed that the Councils included overlays of mineral sites on the Dorset Explorer map. There were already overlays for environmental records such as Ramsars, SACs and SSSIs. We suggested this to the planners but they have wildly surpassed our expectations, e.g. in
