Policy 15: Green infrastructure and Figs. 7.1 and 7.2

The CPRE N Dorset welcomes the Green Infrastructure concept, but we are concerned that there is confusion from including designated areas such as SSSIs, Nature Reserves, AONBs etc. The Plan does not meet legal requirements because the purpose of such areas as defined in legislation is not recreation and public enjoyment (Policy 4, and Para. 4.66 onwards). In the case of AONBs, these public functions are specifically not included by legislation. We are therefore concerned that areas important for rare species, ecology and landscape would be compromised if they are seen as central to a green network devoted to public access and recreation. Indeed, there is mention of the need to more carefully manage public access to Melbury Down (Policy 4, point a).

IOWAs – Important Open and Wooded Areas – we understand that the status of these in planning is somewhat uncertain at present. However, it is the clear intention of the Council that the areas currently designated as IOWAs continue to be protected from development (unless revised in Neighbourhood Plans), so we hope that they will be fully included in the Green Infrastructure or as Green Spaces.

Green infrastructure in the upper reaches of rivers, not just in flood plains, can assist flood control.

We hope that the Green Infrastructure Strategy will clearly define Green Networks and its relationship with these other, designated areas, and we will wish to comment further on that.

We would wish to input to drawing up the Green Infrastructure Strategy.

Continue on a separate sheet if necessary

7. What change(s) do you consider are necessary to ensure that the Local Plan is legally compliant and sound? It would be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

Clearly define the areas discussed above as distinct from Green Infrastructure network areas for public recreation.

Add mention of Green Infrastructure in upper reaches of rivers as beneficial for flood prevention.

continue on a separate sheet if necessary

8. If your representation is seeking a change, do you consider it necessary to participate in the oral part of the examination?

No, I do not wish to participate in the oral examination for this section of the Plan

Yes, I would like to participate in the oral examination

9. If you wish to participate in the oral part of the examination please outline why you consider that to be necessary. Please note that the Inspector determines who is heard at the examination.

We would like to expand on and explain our arguments and reasoning.

10. Please outline your comments on the Final Sustainability Appraisal Report or Habitats Regulations Assessment. Comments are not confined to 'soundness' issues, but respondents can express their opinions on the above documents and use it as a reference point on the 'soundness' of the Local Plan.

11. Do you wish to be notified of any of the following? Please tick all that apply. We will contact you using the details you have given above.

- That the Local Plan Part 1 has been submitted for independent examination
- The publication of the recommendations of any person appointed to carry out an independent examination of the Local Plan Part 1
- The adoption of the Local Plan Part 1.
