

We were unable to empty your waste/recycling today because either:

- Your containers were not presented at the collection point, or
- You presented the wrong containers for collection
- We were unable to access your containers to empty them, or
- Your bin was too heavy for our vehicle to empty

dorsetforyou.com/recycle/white-tag

What do I need to do?

- Make sure your containers are presented at the kerbside or agreed collection point
- Check your collection calendar or online for which containers to put out
- Make sure access to your containers is not blocked
- Try not to overload your bin with heavy items
