

Your Neighbourhood Plan is Back!

Although we lost the battle to shape Blandford's future in the last round, the new Blandford+ Neighbourhood Plan 2 has at last been given the go-ahead to deal with planning issues in your area.

Supported by and working with NDDC, the new plan has grown and developed. You (the community) now have the opportunity to control housing, education and employment plans for the area you live in.

We need your support...so tell us if we've still got it right!

Meeting future housing needs - How many and where?
