Q 6

The approach to housing distribution advocated in policy 6 which follows on from policy 2 indicates a minimal level of growth in the countryside (which it is understood may already have been provided).

The plan proposes in relation to the countryside (including Stalbridge and the villages) to remove settlement boundaries for all of the villages but to permit villages to either bring forward further growth through the Neighbourhood Planning process or by "opting in" to the Local Plan Site Allocations process i.e. leaving decisions about further growth to the LPA. This is reflected in policy 2: Core Spatial Strategy.

In effect this policy will prevent any further growth within the countryside (other than in terms of normally recognised exceptions) with there being no certainty about the Neighbourhood Planning or Opt-In process. Such an approach would be contrary to the Core Planning Principles set out in para 17 of the NPPF including that plans should provide a practical framework within which decisions on planning applications can be made with a high degree of predictability and efficiency. Similarly it will be contrary to the principle that planning should support thriving rural communities within the countryside. Furthermore, the NPPF recognises in Part 3 (para 28) that there should be support for a prosperous rural economy. Para 55 does not rule out housing within rural areas. Rather it suggests how it may be located indicating that it will be necessary to support village services.

6. Please give specific details of why you consider the Local Plan has not been prepared in accordance with the Duty to Co-operate, legal or procedural requirement or why you consider the plan to be **unsound**. Alternatively, if you wish to support any aspects of the plan please also use this box to set out your comments.

See attached sheet

7. What change(s) do you consider are necessary to ensure that the Local Plan is legally compliant and **sound**? It would be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

Core Policy 6 in the supporting text should be amended. Existing settlement boundaries should be retained but could be reviewed through the Neighbourhood Planning process or through a subsequent Site Allocations Development Plan Document which should consider (where appropriate) amending settlement boundaries.

8. If your representation is seeking a change, do you consider it necessary to participate in the oral part of the examination?

- No, I do not wish to participate in the oral examination
 Yes, I would like to participate in the oral examination

9. If you wish to participate in the oral part of the examination please outline why you consider that to be necessary. Please note that the Inspector determines who is heard at the examination.

10. Please outline your comments on the Final Sustainability Appraisal Report or Habitats Regulations Assessment. Comments are not confined to 'soundness' issues, but respondents can express their opinions on the above documents and use it as a reference point on the 'soundness' of the Local Plan.

11. Do you wish to be notified of any of the following? Please tick all that apply. We will contact you using the details you have given above.

- That the Local Plan Part 1 has been submitted for independent examination
- The publication of the recommendations of any person appointed to carry out an independent examination of the Local Plan Part 1
- The adoption of the Local Plan Part 1.
